AN ACT relating to mental health; expanding the list of persons authorized to file an application for the emergency admission of a person alleged to be a person with mental illness and a petition for the involuntary court-ordered admission of such a person to certain facilities or programs; expanding the list of persons authorized to conduct the examination required before a person is admitted to a mental health facility on an emergency basis; expanding the list of persons authorized to complete ~~the certificate stating that certain persons admitted to certain mental health facilities or hospitals are not persons with mental illness;~~ certain certificates concerning the mental condition of another; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law defines "person with mental illness" as a person whose capacity to exercise self-control, judgment and discretion in the conduct of the person's affairs and social relations or to care for his or her personal needs is diminished, as a result of mental illness, to the extent that the person presents a clear and present danger of harm to himself or herself or others. (NRS 433A.115) Existing law authorizes certain persons to file an application for the emergency admission of a person alleged to be a person with mental illness to certain facilities. (NRS 433A.160) **Section 1.5** of this bill expands the list of persons who are authorized to file such an application to include a physician assistant.

Existing law requires a person to be examined by a physician, physician assistant or advanced practice registered nurse before being admitted to a mental health facility on an emergency basis. (NRS 433A.165) Section 1.6 of this bill authorizes a paramedic to conduct such an examination.

With certain exceptions, existing law requires an application for the emergency admission of a person alleged to be a person with a mental illness to be accompanied by a certificate of a psychiatrist or licensed psychologist or, if neither is available, a physician, stating that the person has a mental illness and, because of the mental illness, is likely to harm himself or herself or others if not admitted to certain facilities or programs. (NRS 433A.170, 433A.200) Under existing law, a licensed physician on the medical staff of certain facilities may release a person alleged to be a person with mental

illness who has been admitted on an emergency basis if a licensed physician on the medical staff of the facility completes a certificate stating that the person admitted is not a person with a mental illness. (NRS 433A.195) Sections 1, 1.7, 2, ~~and 3 and 4~~ of this bill authorize a physician assistant ~~to~~ under the supervision of a psychiatrist, a psychologist, a clinical social worker ~~to~~ with certain psychiatric training and experience, an advanced practice registered nurse with certain psychiatric training and experience or an accredited agent of the Department of Health and Human Services to complete such a certificate while still requiring a licensed physician on the medical staff of the facility to release the person. Sections 4.2 and 4.7 of this bill require the State Board of Nursing and the Board of Examiners for Social Workers to adopt regulations prescribing the psychiatric training and experience necessary before an advanced practice registered nurse or clinical social worker, as applicable, may complete such a certificate.

Existing law prohibits a person who is related by blood or marriage within the first degree of consanguinity or affinity from completing: (1) an application for the emergency admission of such a person to a mental health facility; (2) a certificate stating that a person has a mental illness, is likely to harm himself or herself or others if not admitted to a mental health facility on an emergency basis; or (3) a certificate stating that a person is not a person with a mental illness. (NRS 433A.197) Section 3 also prohibits a person who is related by blood or marriage within the second degree of consanguinity or affinity to a person alleged to be a person with mental illness from completing such an application or certificate.

Existing law authorizes the spouse or a parent, adult child or legal guardian of a person and certain other persons to file a petition for the involuntary court-ordered admission of a person alleged to be a person with mental illness to a mental health facility or to a program of community-based or outpatient services. (NRS 433A.200) Section 4 ~~(of this bill)~~ further authorizes a physician assistant to file such a petition.
