EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to occupational safety; ~~revising~~ **removing** provisions governing the expiration and renewal of certain completion cards obtained by construction workers and supervisory employees; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires each construction worker and supervisory employee to obtain, within 15 days after the date he or she is hired, a completion card for taking a course in construction industry safety and health hazard recognition which is: (1) developed by the Occupational Safety and Health Administration of the United States Department of Labor; and (2) approved by the Division of Industrial Relations of the Department of Business and Industry. Each completion card obtained by a construction worker or supervisory employee expires 5 years after the date it is issued and may be renewed by: (1) completing another such course in construction industry safety and health hazard recognition within the previous 5 years; or (2) completing certain requirements for continuing education within that period. (NRS 618.983) This bill provides that a completion card obtained by a construction worker **or supervisory employee** does not expire or require renewal. ~~[This bill also provides that each completion card obtained by a supervisory employee expires 10 years, rather than 5 years, after the date it is issued and may be renewed by completing another such course or completing those requirements for continuing education within the previous 10 years.]~~
