AN ACT relating to suppression of fires; temporarily requiring the entity that is responsible for the closest emergency fire-fighting vehicle to respond to and suppress certain fires in certain counties; exempting an airport authority located in certain counties from this requirement; requiring certain entities to negotiate an automatic aid agreement concerning certain matters; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law authorizes the municipalities of this State to provide fire protection services. (NRS 268.730) Existing law also authorizes the creation of districts for a fire department by boards of county commissioners and the creation of fire protection districts and county fire protection districts. (NRS 244.2961, 473.034, 474.110, 474.460) **Section 1** of this bill requires, in a county whose population is 100,000 or more but less than 700,000 (currently Washoe County), the entity that is responsible for the emergency fire-fighting vehicle located closest to a structure or brush fire to respond to and take all actions necessary to suppress the fire regardless of whether the location of the fire falls within the territory served by the entity. **Section 1** exempts an airport authority in such a county and any vehicle or firefighter of such an airport authority from this requirement. **Section 1** additionally: (1) requires each entity, other than an airport authority which maintains an emergency fire-fighting vehicle in such a county, to negotiate an automatic aid agreement with each other such entity which addresses the reimbursement of costs, geographic areas of coverage or any other relevant issue or any combination thereof; and (2) provides that a failure to reach an automatic aid agreement does not exempt an entity from complying with the requirement to respond to a fire if it is responsible for the emergency fire-fighting vehicle located

15 are no longer put at risk by the reluctance of these entities to find an  
16 agreement that protects their residents; now, therefore,
