AN ACT relating to public health; revising the composition and duties of health districts in certain larger counties; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law creates a health district in a county whose population is 700,000 or more (currently Clark County). The health district consists of a district health officer and a district board of health, which consists of representatives selected by various governmental entities and additional members selected by those representatives. (NRS 439.362) **Section 3** of this bill revises the composition of such a health district to include a district administrative director and a public health advisory board. **Section 3** provides that certain members selected by the representatives of various governmental entities under current law no longer serve as voting members of the district board of health and instead comprise the public health advisory board, the members of which serve as nonvoting members of the district board of health. **Section 3** additionally includes one resident of each city in the county, as selected by the governing body of the city, on the public health advisory board. **Section 3** also prohibits any member of the district board of health from designating another person to vote, participate in a discussion or otherwise serve on his or her behalf. **Section 4** of this bill provides for the conversion of the currently serving members of a district board of health whose positions would become part of a public health advisory board pursuant to **section 3**. **Section 1** of this bill provides for the appointment, qualifications, duties and compensation of a district administrative director.
