AN ACT relating to minerals; revising provisions relating to certain fees for permits to drill and operate oil and natural gas wells; making various other changes to provisions relating to oil and natural gas; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the Commission on Mineral Resources to prescribe by regulation a fee, not to exceed \$200, for a permit to drill a well in search of oil or gas. (NRS 522.050) **Section 1.5** of this bill: (1) revises the statutory limit on the fee for such a permit; (2) establishes a statutory limit on the fee for a request to change the terms of an existing permit; and (3) authorizes the Commission to include in such fees the reasonable administrative costs of the Division of Minerals of the Commission relating to the filing and examination of applications for such permits and requests.

Existing law requires the Commission to prescribe by regulation a fee, not to exceed 20 cents for each barrel of oil or each 50,000 cubic feet of natural gas produced from a well in this State, which must be assessed against the producer of the oil or natural gas. (NRS 522.150) **Section 2** of this bill raises the statutory limit on the fee from 20 cents to 30 cents.
