City/County: **City of Las Vegas**

Approved by: Michelle Thackston, Administrative Secretary

Comment: Upon initial review of the bill there could be a fiscal impact to the City of Las Vegas, but the impact is unknown until the funding source is identified. It is expected that the funding source may come from the Motor Vehicle Fuel Tax, which if used, would reduce the amount of funding the City of Las Vegas would receive for infrastructure projects. Until there is a clarification of the funding source, we don't know the potential fiscal impacts. The City of Las Vegas would like the State Nevada Division of Environmental Protection (NDEP) to indicate the funding source within the language of the bill for clarification of funding source. We could then coordinate with the RTC to better determine fiscal impact.

School District: Douglas County School District Approved by: Holly Luna, CFO, Business Services Comment: Douglas County School District currently pays for enrollment fees with the NV Petroleum Fund because the district operates multiple tanks and would be affected by the enrollment of this bill. However, while the BDR provides revisions to definitions, the fiscal impact is no different than existing statutes require, and would be limited by deductible required per incident (\$5,000) and up to insurance limitations.
