State Agency: **Nevada Commission on Ethics**

Approved by: /s/ Yvonne M. Nevarez-Goodson, Executive Director

Comment: A.B 62 (BDR 19-298) revises various provisions relating to veterans, including establishment of certain veteran preferences in state contracts. Section 5 of the bill would require each state agency, including the Nevada Commission on Ethics, to submit all solicitations for the award of any contract to the Office of Economic Development for its record-keeping and notification requirements of local businesses which are owned by a veteran. The Commission has rare need to issue any contracts for goods or services as its operations are adequately staffed with full time employees and funded under its legislatively approved budget. Only once in the last 5 years has the Commission solicited a contract for temporary professional legal services to assist with a special and unique project. Should the Commission need to solicit any contractual goods or services, the requirement to provide the solicitation to the Office of Economic Development would require minimal staff time and effort and have no fiscal impact on the agency. Commission staff is adept at issuing various notifications and filing information with fellow government agencies. Section 28 of the bill would require certain state agencies to report certain data to the Interagency Council on Veterans Affairs. However, the Commission is not included in the list of agencies subject to this requirement. Accordingly, this section and the remaining sections of the bill have no fiscal impact on the Commission.

State Agency: Nevada Department of Transportation Approved by: Sean Sever, Communications Director Comment: BDR 19-298 (FN Request #428) creates a veterans' preference program for public purchasing contracts, project or services contracts. This fiscal note acknowledges that NDOT will incur some overtime expenses for current staff to handle initial implementation of this new program and to accomplish initial MSA computer programming necessary to fully comply with the program's processing and reporting requirements. However, these costs will be absorbed without requesting additional expenditure authority.

Because the Motor Vehicle Information technology (MVIT) Division existing staff will be utilized, the Department will be absorbing the cost to generate the reports needed to fulfill the requirements. Specifically: The total number of veterans who have applied for and received a commercial driver's license; the average monthly total of license plates issued to veterans; and the total number of veterans who requested to have a veteran designation placed on their driver's license or identification card. The agency has reviewed the bill and determined that there is no fiscal impact.
