Explanation

(Use Additional Sheets of Attachments, if required)

Has minimal fiscal impact. Structure fires are significant events when they occur, however they represent only ½ of 1% of the total call volume for Truckee Meadows Fire Protection District (TMFPD). Costs for structure fire response are largely fixed: labor, rolling stock and equipment are static whether or not they are responding to a call, or are in quarters. There is no significant additional cost to provide automatic aid that would exist over and above the costs already borne in the Truckee Meadows Fire Protection District's budget.
