Total	0	0	0	0

Explanation

(Use Additional Sheets of Attachments, if required)

Subsection 4 of section 1 of this legislation would require the Fiscal Analysis Division to prepare a report as to the advisability of using certain federal assistance programs and discontinuing the use of other such programs. It appears that this report would need to be completed annually, but it also appears that Fiscal Analysis Division staff could work on the report only during Interim periods between legislative sessions. For this reason the Fiscal Analysis Division believes it can perform the additional duties prescribed by the legislation without requesting additional resources.

Name Richard S. Combs

Title Director
