The Nevada Department of Corrections has reviewed BDR 40-889. Per NRS 453.321, a practitioner who prescribes a controlled substance without the proper registration with the State of Nevada Board of Pharmacology will be guilty of a category D felony. The Nevada Department of Corrections searched its database and hasn't identified any offenders that have been convicted for unlawfully dispensing or prescribing controlled substances. Thus, passage of the proposed law should have a negligible impact on the size of the size of the prison population.
