Explanation

(Use Additional Sheets of Attachments, if required)

The State Public Charter School Authority (SPCSA) anticipates a fiscal impact in future biennia if BDR 34-314 is approved as submitted. However, SPCSA is not able to provide estimated fiscal impact due to multiple variables which are unclear at this time. SPCSA anticipates the resulting fiscal impact to be related to variables such as, but not limited to: volume of applications received; number of resubmissions of applications; count of approved charter school facilities; location of approved charter school facilities; types of programs provided at each school campus; student enrollment; and due diligence for compliance with additional regulatory duties such as those identified in sections 22 and 23. The organizational impact identified in this fiscal note pertains only to the 2015-2017 biennium.
