Explanation

(Use Additional Sheets of Attachments, if required)

This legislation would express the intent of the Legislature to increase the number of members of the Legislature during its next reapportionment and redistricting cycle. The legislation directs the Legislative Counsel Bureau to study, before the next reapportionment and redistricting cycle, the logistical impediments, including the costs associated with increasing the size of the Legislature. The Legislative Counsel Bureau would be able to conduct the study required by the legislation without any additional resources.
