#### Explanation

(Use Additional Sheets of Attachments, if required)

BDR 43-1144 authorizes two new special license plates in support of the Boy Scouts of America and in recognition of a person who has achieved the rank of Eagle Scout. The Department will be required to design, prepare, and issue these plates only upon recommendation by the Commission on Special License Plates and approval by the Department. Once approved, the plates will be placed on the waiting list for first tier special license plates in the order that applications are received, and produced only as openings become available within the statutory limit of no more than 30 special license plates issued at the same time.

Programming is estimated at 140 hours. Because the timeline to issue these plates is extended due to the wait time for first tier license plates, programming will be completed by Department staff.

The Department has reviewed this BDR and determined that there is no fiscal impact.
