Explanation

(Use Additional Sheets of Attachments, if required)

Section 8 of BDR 38-498 requires the State Board of Health to adopt licensing standards for emergency shelters that account for the differences between emergency shelters and child care facilities. These licensing standards will require the State Board of Health to revise its regulations (projected to be completed in the first year of the biennium), which will have a fiscal impact on the division since the division supports the State Board of Health.
