Legislative Counsel's Digest:

Under existing law, the Taxicab Authority exercises regulatory authority over taxicabs in any county whose population is 700,000 or more (currently Clark County). (NRS 706.881) The Taxicab Authority may adopt regulations for the administration and enforcement of the provisions of existing law that apply to such taxicabs. (NRS 706.8818) Existing law requires the Nevada Transportation Authority to adopt regulations governing the operation in this State of a transportation network company and each driver who enters into an agreement with a transportation network company to receive connections to potential passengers and provide transportation services. (NRS 706A.100) **Section 3** of this bill authorizes the Taxicab Authority to enter into a memorandum of understanding with the Nevada Transportation Authority which confers upon the Taxicab Authority concurrent enforcement jurisdiction over a transportation network company and a person who is a driver for a transportation network company during any period in which the person provides transportation services in the county where the Taxicab Authority has jurisdiction. **Sections 1 and 14-16** of this bill make conforming changes.

Existing law requires payment to the Taxicab Authority of a technology fee in an amount set by the Taxicab Authority by each taxicab certificate holder for each compensable trip of each taxicab of the certificate holder. (NRS 706.8826) The money from the technology fee must be deposited in the Taxicab Authority Fund, and existing law requires that the money be used to implement technological improvements in safety, reliability and efficiency, including the implementation of a computerized real-time data system to assist with the regulation of taxicabs. (NRS 706.8825) **Section 5** of this bill removes the requirement for the money from the technology fee to be spent on such a system, and authorizes its use for the implementation of technological improvements in safety. **Section 26** of this bill repeals the provision of existing law authorizing the use of a computerized real-time data system.

Existing law requires the Taxicab Authority to approve or disapprove the color scheme, insignie and design of the cruising lights of the taxicabs of a certificate holder, and to ensure that each certificate holder's taxicabs are readily distinguishable from those of another certificate holder. (NRS 706.8833) **Section 6** of this bill retains the requirement that taxicabs of each certificate holder be readily distinguishable from those of each other certificate holder, but removes the requirement for the Taxicab Authority to approve such color schemes, insignie and design of cruising lights. **Section 6** also revises provisions governing the placement of advertisements on the exterior of taxicabs by authorizing the use of the advertisements if the placement of the advertisements does not impair the ability of the driver to operate the vehicle safely.

Under existing law, a certificate holder may only use for a taxicab a new vehicle or a vehicle with 30,000 miles or less on the odometer. A new vehicle used as a taxicab must be removed from service as a taxicab after 67 months of such use, and a vehicle with less than 30,000 miles on it when put into use as a taxicab must be removed from service after 55 months. If the vehicle is a hybrid electric vehicle, the vehicle is allowed an additional 24 months of service. (NRS 706.8834) **Section 7** of this bill provides instead that any vehicle used as a taxicab may only be used as a taxicab for 120 months after the date on which the vehicle was manufactured.

Section 8 of this bill newly requires each taxicab to display a statement indicating whether the certificate holder accepts credit cards and debit cards and, if so, listing the maximum fee a customer will be charged for the convenience of using a credit card or debit card. Existing law provides that the maximum amount of such a fee may be prescribed in regulation by the Taxicab Authority. (NRS 706.88355)

* A B 4 8 7 *

Existing law authorizes the Taxicab Administrator of the Department of Business and Industry to inspect a taxicab at any reasonable time. (NRS 706.8839) **Section 9** of this bill requires such an inspection at least once each year.

Existing law authorizes a certificate holder to lease a taxicab to an independent contractor, who may only use the taxicab in a manner authorized by the certificate holder's certificate of public convenience and necessity. (NRS 706.88396) **Section 10** of this bill expands existing law by authorizing the independent contractor to use the taxicab to provide transportation services pursuant to an agreement with a transportation network company. **Section 10** also requires the certificate holder who leases a taxicab to an independent contractor to inspect the taxicab at least monthly. **Sections 14 and 15** of this bill make conforming changes.

Existing law requires an applicant for a driver's permit to drive a taxicab to prove that he or she has been a resident of this State for at least 30 days. (NRS 706.8841) **Section 11** of this bill requires the applicant to prove instead that he or she is a resident of this State or a state that adjoins the county in which the applicant has applied for the driver's permit. **Section 12** of this bill revises provisions regarding daily trip sheets to allow for the use of electronic trip sheets in place of time clocks.

Under existing law, a driver of a taxicab is not allowed to take a longer route to a passenger's destination than is necessary, unless specifically requested to do so by the passenger. (NRS 706.8846) **Section 13** of this bill provides that a driver is not allowed to take a longer route unless: (1) specifically requested to do so by the passenger; (2) the passenger consents after discussing with the driver the distance, time and fare for a longer route compared to the shortest route; or (3) the longer route is approved by the Taxicab Authority. **Section 13** also provides that the Taxicab Authority may only conduct an investigation for a violation of this provision upon receipt of a complaint by a passenger.

Existing law imposes an excise tax upon each connection by a transportation network company, common motor carrier of passengers or certificate holder of a passenger to a driver, person or operator or taxicab, respectively, to provide transportation to the passenger. (NRS 372B.140-372B.160) **Sections 21-23** of this bill require each transportation network company, common motor carrier of passengers and certificate holder to collect the excise tax from a passenger or group of passengers at the time the passengers or group of passengers pay a fare. **Section 22** also imposes a similar tax on contract motor carriers.

Under existing law, a person may not operate on the highways of this State any motor vehicle equipped with a dynamic display unless the vehicle is also equipped with a display management system that is configured to prevent the image or content on the dynamic display from changing when the vehicle is moving, in a turnout or in a location where such a change may cause undue distraction to other drivers. Such a dynamic display is also prohibited from projecting moving images or other moving content. (NRS 484D.493) **Section 26** of this bill repeals this provision.
