AN ACT relating to employment; prescribing certain requirements for health benefits for the purpose of determining the minimum wage paid to employees in private employment in this State; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Section 16 of article 15 of the Nevada Constitution requires each employer in this State to pay a certain minimum wage to each employee of the employer. Under this provision of the Nevada Constitution, if an employer offers health benefits to an employee and his or her dependents, the minimum wage required to be paid to the employee is lower than the minimum wage otherwise required to be paid to the employee. (Nev. Const. Art. 15, § 16) This bill establishes the minimum level of health benefits that an employer must make available to an employee and his or her dependents for the purpose of determining whether the employer is authorized to pay the lower minimum wage to the employee.
