EXPLANATION – Matter in *bolded italics* is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to off-highway vehicles; creating the Off-Highway Vehicles Program in the State Department of Conservation and Natural Resources; placing the Commission on Off-Highway Vehicles within the Department; revising provisions regarding the membership and duties of the Commission; reducing the late fee imposed for failure to register an off-highway vehicle; revising provisions authorizing the operation of an off-highway vehicle on certain roads in this State; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law creates the Commission on Off-Highway Vehicles and authorizes the Commission to award grants of money from the Account for Off-Highway Vehicles to certain applicants for projects relating to off-highway vehicle use and off-highway trails and facilities. (NRS 490.067, 490.068, 490.069) **Sections 4 and 6** of this bill place the Commission within the State Department of Conservation and Natural Resources.

Section 1 of this bill creates the Off-Highway Vehicles Program in the State Department of Conservation and Natural Resources. In administering the Program, the Director of the Department, within the limits of approved funding, is required to: (1) provide certain support and assistance to the Commission on Off-Highway Vehicles; and (2) administer the Account for Off-Highway Vehicles. **Section 1** further requires the Director to include in his or her budget the money necessary, within the limits of legislative appropriations for the Account, for: (1) certain expenses of the Program and the Commission; and (2) a reserve amount.

Under existing law, each member of the Commission on Off-Highway Vehicles is entitled to receive, if money is available for that purpose, the per diem allowance and travel expenses provided for state officers and employees generally. (NRS 490.067) **Section 6** provides that, if money is available for that purpose, any member of the Commission who is not an officer or employee of the State is entitled to receive a salary of not more than \$80 per day for each day of attendance at a meeting of the Commission. **Section 6** further provides a procedure for replacing a member of the Commission who fails to attend at least three consecutive meetings.

Under existing law, the Commission on Off-Highway Vehicles is required to solicit nine nonvoting advisors to the Commission from various state and federal agencies. (NRS

490.068) **Section 7** of this bill removes that requirement, and **section 6** also: (1) revises the membership of the Commission; and (2) adds to the Commission four nonvoting, ex officio members. **Section 7** also sets forth requirements for establishing a quorum of the Commission for transacting business. Finally, **sections 1 and 7** revise provisions requiring a comprehensive report that must be submitted to the Legislature, providing that the report must be prepared by the Director of the State Department of Conservation and Natural Resources, then reviewed and approved by the Chair of the Commission before being submitted to each regular session of the Legislature.

Under existing law, fees paid for titling and registration of an off-highway vehicle are deposited into the Revolving Account for the Administration of Off-Highway Vehicle Titling and Registration. (NRS 490.084) The Department of Motor Vehicles is required to transfer, at least once each fiscal quarter, any amount in excess of \$150,000 in that Account into the Account for Off-Highway Vehicles. (NRS 490.085) The Commission on Off-Highway Vehicles is required to administer the money in the Account for Off-Highway Vehicles. (NRS 490.069) **Section 8** of this bill requires the Director of the State Department of Conservation and Natural Resources to administer the Account. **Section 8** also requires a portion of the money in the Account be used to maintain a reserve amount.

Under existing law, if the owner of an off-highway vehicle that is registered in this State fails to renew the registration before it expires, the registration may be reinstated upon payment of the annual renewal fee, a late fee of \$25 and, if applicable, the submission of proof of insurance, which is only required for certain larger all-terrain vehicles that are authorized to operate on certain county roads. (NRS 490.082, 490.0825, 490.105) **Section 9** of this bill reduces the late fee to \$10.

Under existing law, with certain exceptions, a person may not operate an off-highway vehicle on a highway in this State unless a governmental entity has designated the highway for use by off-highway vehicles. Such a designation is prohibited on any portion of an interstate highway. (NRS 490.090, 490.100, 490.110) A person operating an off-highway vehicle on such a highway must possess a driver's license, wear a helmet, obey all traffic laws, have certain lights and reflectors on the off-highway vehicle, have registered the off-highway vehicle and may not travel farther than 2 miles on the highway. (NRS 490.110, 490.120, 490.130) Certain larger off-highway vehicles may operate on certain general or minor county roads if the off-highway vehicle is insured in an amount that meets the requirements for a motor vehicle. (NRS 490.0825, 490.105)

Section 9.1 of this bill provides that a person may operate an off-highway vehicle on any highway, area of public land, trail, way or unpaved road of this State unless it has been designated by a city, county or other governmental entity as prohibited for the use of an off-highway vehicle. Section 9.2 of this bill authorizes a city, county or other governmental entity to designate any portion of a highway over which it has jurisdiction as prohibited for the operation of an off-highway vehicle. Such a city, county or other governmental entity may: (1) authorize by ordinance a person who is less than 16 years of age to operate an off-highway vehicle on certain highways if the person is under the direct visual supervision of an adult; (2) prepare and distribute maps of highways designated as prohibited for the use of off-highway vehicles; and (3) erect and maintain signs designating such highways. Section 9.3 of this bill removes the provision limiting travel by an off-highway vehicle on a highway to not more than 2 miles. Section 9.4 of this bill provides that a headlamp and tail lamp are not required to operate an off-highway vehicle on a highway during daylight hours.
