AN ACT relating to children; ~~Creating a procedure for the establishment of paternity in proceedings concerning a child in need of protection; authorizing a court to order certain tests for the typing of blood or taking of specimens for the genetic identification of a child in need of protection, the natural mother of such a child or the alleged father of such a child;~~ and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law establishes provisions governing proceedings concerning a child who is or may be in need of protection. (NRS 432B.410–432B.590) ~~Section 2 of this bill provides that if a petition alleging that a child is or may be in need of protection is filed with a court and the paternity of the child has not been legally established, a motion to establish paternity may be filed with the court. Such a motion must include certain information and be served by personal service upon the alleged father of the child. Section 3 of this bill provides that if the alleged father of the child is personally served with a motion to establish paternity and he does not appear at the hearing to consider the motion or does not file with the court a written response denying paternity, the court may enter a recommendation or order, as applicable, that declares and establishes the alleged father as the natural father of the child.~~

~~Section 4 of this bill authorizes a court to enter a recommendation or order, as applicable, establishing the legal paternity of a child during any proceeding concerning a child who is or may be in need of protection if both parents sign an affidavit or other sworn statement indicating that paternity of the child has not been legally established and the father is presumed to be the natural father of the child pursuant to applicable provisions of law.~~

~~Section 5 of this bill requires a court to order tests for the typing of blood or taking of specimens for genetic identification of a child, the natural mother of the child and the alleged father of the child in certain circumstances. Section 5 provides that after receipt of the results of such tests showing a probability of 99 percent or more that the alleged father is the natural father of the child, if a written objection to the result of such tests is not timely filed, the court may enter a recommendation or order, as applicable, establishing the legal paternity of the child. Section 5 further requires the Division of Welfare and Supportive Services of the Department of Health and Human Services to pay the costs of such tests except for any additional tests conducted for the purpose of contesting the results of a test.~~

25 Section 6 of this bill provides that any approved recommendation or order establishing
26 the legal paternity of a child establishes legal paternity for all purposes and is excluded from
27 certain confidentiality requirements. Section 6 also requires that such a recommendation or
28 order provide for the issuance of a new birth certificate that includes the name of the natural
29 father if necessary.

30 Sections 7-13 of this bill make conforming changes.
31 This bill authorizes a court to order tests for the typing of blood or taking of specimens for the genetic identification of such a child, the natural mother of such a child or the alleged father of such a child.
