AN ACT relating to school buses; revising the definition of a school bus for certain purposes; revising provisions relating to the inspection of school buses; requiring new school buses purchased on or after a certain date be equipped with safety belts; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides a definition of a school bus for the purposes of certain laws regarding traffic laws and rules of the road. (NRS 484A.230) **Section 1** of this bill revises the definition of school bus to specify that such a vehicle must be “designed or used to carry more than 10 passengers in addition to the driver.” This definition more closely comports with the definition of a school bus in the Federal Motor Carrier Safety Regulations. (49 C.F.R. § 390.5)

Existing law provides various restrictions on and requirements for a school bus, including required evacuation drills, adoption of a safety program, driver qualifications and training, and standards for how a school bus used to transport pupils must be equipped. (NRS 386.790-386.845) **Section 2** of this bill provides that the revised definition of school bus in **section 1** applies to all such existing laws. The revised definition of school bus in **section 1** also applies to various other uses of the term throughout title 34 of NRS, regarding such topics as the use of transportation funds by a school district to purchase school buses, the extension of the safe and respectful learning environment to include school buses, the prohibition on bullying and cyber-bullying on school buses, the authorization procedures for a pupil to self-administer certain medications on a school bus and the provision for suspension or expulsion of a pupil for certain behaviors committed on a school bus. (NRS 386.795, 388.132, 388.135, 392.425, 392.466)

Sections 3 and 4 of this bill require that any new school bus which is purchased by a school district on or after July 1, ~~2017~~ **2019**, must be equipped with a shoulder-harness-type safety belt assembly for each permanent seating position for passengers. The safety belts must meet certain federal standards and specifications. **Section 6** of this bill imposes those same requirements on a private school which purchases a new school bus to transport pupils.

Under existing law, agents and employees of the Department of Motor Vehicles are required to inspect school buses to determine if the school buses comply with various equipment and identification requirements, and must report any violations to the superintendent of schools of the school district wherein the school buses are operating. (NRS 386.840) **Section 5** of this bill transfers those requirements to the Department of Public Safety.

Existing law provides that certain laws relating to the condition, equipment and identification of vehicles used for the transportation of pupils, including school buses, apply to

private schools. (NRS 394.190) All such vehicles are subject to inspection at all times by the Department of Motor Vehicles, which is required to report any violation to the executive head of the private school. **Section 6** of this bill transfers those requirements to the Department of Public Safety.
