AN ACT relating to education; requiring the board of trustees of certain **larger** school districts to establish a program of professional development to provide training on how to work collaboratively to ensure that a school environment is productive and collaborative; requiring teachers and principals to receive such training **[at the request of the superintendent of the school district or principal of a school; in certain circumstances;** requiring the board of trustees of certain school districts to conduct an investigation at a school **[upon the petition of a certain number of employees, parents or legal guardians of pupils enrolled at the school; in certain circumstances to determine engagement of parents and families of pupils and whether the culture of the school is focused on pupil outcomes;** requiring the board of trustees of certain school districts to provide certain training to members of the staff at a school in which an investigation occurs; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

1 Existing law requires the board of trustees of each school district to ensure that teachers  
2 and administrators employed by the school district have access to high-quality, ongoing  
3 professional development training. (NRS 391A.370) **Section 2** of this bill requires the board  
4 of trustees of a school district in which more than 75,000 pupils are enrolled (currently the  
5 Clark County School District) to establish a program of professional development to provide  
6 training to teachers and principals on how to engage and work collaboratively with members  
7 of the staff of the school and the parents and families of pupils enrolled at the school to ensure  
8 that the school environment is productive and collaborative. **Section 2** also requires principals  
9 and teachers to receive such training at the request of the superintendent of the school district  
10 or the principal of the school.

11 **Section 3** of this bill requires the board of trustees of a school district in which more than  
12 75,000 pupils are enrolled, upon petition of a certain percentage of employees of the school or

parents or legal guardians of pupils who are enrolled in the school ~~or upon the affirmative vote of a majority of the members of an organizational team if such a team has been established for a school as part of the reorganization of the school district~~, to investigate whether: (1) certain employees at a school are effectively engaging the parents and families of pupils who are enrolled in the school; and (2) the culture of the school is focused on pupil outcomes. **Section 3** also requires the board of trustees of a school district that conducts such an investigation to provide any necessary and appropriate training to members of the staff of the school to ensure that parents and families of pupils enrolled in the school are effectively engaged in the education of their children and that the culture at the school is focused on pupil outcomes. Finally, section 3 makes the provisions of that section inapplicable to a turnaround school until after the first year in which the school operates under that designation.
