Existing law establishes the HIV/AIDS Drug Donation Program and the Cancer Drug Donation Program. (NRS 453B.010-453B.130, 453B.150-453B.240) This bill: (1) combines those Programs to create the Prescription Drug Donation Program; and (2) additionally allows a person or governmental entity to donate to the Prescription Drug Donation Program any prescription drug, with limited exceptions.

Section 2 of this bill authorizes a person or governmental entity to donate to the Prescription Drug Donation Program any prescription drug, other than marijuana and certain other drugs for which the patient must be registered with the manufacturer. **Section 2** also authorizes a pharmacy, medical facility, health clinic or provider of health care to impose a handling fee upon a patient who receives a donated prescription drug and imposes requirements concerning the acceptance, distribution or dispensing of a donated prescription drug. **Section 2 also reduces the minimum number of days before a prescription drug expires for the drug to be accepted, distributed or dispensed pursuant to the program from 180 to 60 days or more after the date on which the drug is donated.**

Section 3 of this bill prescribes certain recordkeeping requirements relating to donated prescription drugs and the storage of donated prescription drugs. **Section 4** of this bill requires a donated prescription drug to be dispensed by a registered pharmacist, pursuant to a prescription, to a recipient who is eligible under regulations adopted by the State Board of Pharmacy. **Section 5** of this bill requires a pharmacy, medical facility, health clinic or provider of health care that participates in the Program to comply with all applicable state and federal laws. **Section 5** also authorizes such a pharmacy, medical facility, health clinic or provider of health care to distribute a donated prescription drug to another pharmacy, medical facility, health clinic or provider of health care that participates in the Program. **Section 6** of this bill requires the Board to adopt regulations to carry out the Program. **Section 7** of this bill: (1) provides immunity from liability for certain actions relating to the Program; and (2) requires a person to whom a donated prescription drug is dispensed to sign a waiver of liability for such actions.
