AN ACT relating to health care; requiring the State Plan for  
Medicaid and certain health insurance plans to provide  
certain benefits relating to reproductive health care,  
hormone replacement therapy and preventative health  
care; revising provisions relating to dispensing of  
contraceptives; and providing other matters properly  
relating thereto.

**Legislative Counsel's Digest:**

Existing law requires most health insurance plans which cover prescription  
drugs and outpatient care to also include coverage for contraceptive drugs and  
devices without an additional copay, coinsurance or a higher deductible than that  
which may be charged for other prescription drugs and outpatient care under the  
plan. (NRS 689A.0415, 689A.0417, 689B.0376, 689B.0377, 695B.1916,  
695B.1918, 695C.1694, 695C.1695) Existing law also requires most health  
insurance plans to include coverage for certain preventative services, including the  
human papillomavirus vaccine, cytological screenings and mammograms. (NRS  
287.0272, 689A.0405, 689A.044, 689B.0313, 689B.0374, 695B.1912, 695B.1925,  
695C.1735, 695C.1745, 695G.171) Certain plans, including small employer plans,

\* S B 2 3 3 R 4 \*

benefit contracts provided by fraternal benefit societies, plans issued by a managed care organization and certain plans offered by governmental entities of this State are not currently subject to some of these requirements. (Chapters 287, 689C, 695A and 695G of NRS)

The federal Patient Protection and Affordable Care Act (Public Law 111-148, as amended) requires certain preventative services to be covered by every health insurance plan without any copay, coinsurance or higher deductible, including, without limitation, certain contraceptive drugs, devices and services, certain vaccinations, mammograms, counseling concerning interpersonal and domestic violence, screenings for certain diseases and well-woman preventative visits. (42 U.S.C. § 300gg-13(a)(4); 45 C.F.R. § 147.130) This bill places those requirements in Nevada law, requiring all private health insurance plans and certain public health insurance plans made available in this State to provide coverage for certain preventative services without any copay, coinsurance or a higher deductible. The provisions of this bill do not require a public or private insurer to provide coverage for the purpose of terminating a pregnancy. **Sections 7, 8 and 11-57** of this bill allow an insurer to require an insured to pay a higher deductible, copayment or coinsurance for a drug for contraception if the insured refused to accept a therapeutic equivalent of the contraceptive drug. In addition, a health insurance plan must include for each listed method of contraception which is approved by the Food and Drug Administration at least one contraceptive drug or device for which no deductible, copayment or coinsurance may be charged to the insured. **Sections 7, 8 and 11-57** authorize an insurer to use medical management techniques, including step therapy and prior authorization, to determine the frequency of the preventative services required by this bill or the type of provider of health care who will provide such services. **Sections 7, 8 and 11-57** also require certain contraceptive drugs, devices and services to be covered by a health insurance plan, including up to a 12-month supply of contraceptives or a therapeutic equivalent, insertion or removal of a contraceptive device, education and counseling relating to contraception and voluntary sterilization for women. **Sections 12, 18, 27, 33, 38, 45 and 54:** (1) prohibit the use of medical management techniques to require an insured to use a method of contraception other than that prescribed or ordered by a provider of health care; and (2) require an insurer to provide a process by which an insured can request an exemption from a medical management technique required by an insurer to obtain contraception.

Existing law authorizes an insurer which is affiliated with a religious organization and which objects on religious grounds to providing coverage for contraceptive drugs and devices to exclude coverage in its policies, plans or contracts for such drugs and devices. (NRS 689A.0415, 689A.0417, 689B.0376, 689B.0377, 695B.1916, 695B.1918, 695C.1694, 695C.1695) **Sections 12, 20, 27, 33, 38, 45 and 54** of this bill move the religious exemption to the new provisions relating to coverage of contraception.

Existing law requires most health insurance plans which cover prescription drugs and outpatient care to also include coverage for hormone replacement therapy without an additional copay, coinsurance or a higher deductible than that which may be charged for other prescription drugs and outpatient care under the plan. (NRS 689A.0415, 689A.0417, 689B.0376, 689B.0377, 695B.1916, 695B.1918, 695C.1694, 695C.1695) **Sections 7, 8 and 11-57** of this bill expand this requirement to private health insurance plans and certain public health insurance plans made available in this State and require such health insurance plans to provide coverage for hormone replacement therapy without any copay, coinsurance or higher deductible.

Existing law requires this State to develop a State Plan for Medicaid which includes, without limitation, a list of the medical services provided to Medicaid recipients. (42 U.S.C. § 1396a; NRS 422.063) Existing federal law authorizes a

\* S B 2 3 3 R 4 \*

state to charge a copay, coinsurance or deductible for most Medicaid services, but prohibits any copay, coinsurance or deductible for certain contraceptive drugs, devices and services. (42 U.S.C. § 1396o-1) Existing federal law also authorizes a state to define the parameters of contraceptive coverage provided under Medicaid. (42 U.S.C. § 1396u-7) Existing law requires a number of specific medical services to be covered under Medicaid. (NRS 422.2717-422.27241) **Sections 2-5.5** of this bill require the State Plan for Medicaid to include certain preventative services currently required to be covered by private health insurance plans pursuant to existing Nevada law, the Patient Protection and Affordable Care Act (Public Law 111-148 as amended) as well as the additional drugs, devices, supplies and services required by **sections 7, 8 and 11-57** without any copay, coinsurance or deductible in most cases. The benefits relating to contraceptive drugs which are provided by **section 2** of this bill are subject to step therapy and prior authorization requirements pursuant to existing law.

Existing law authorizes a pharmacist to dispense up to a 90-day supply of a drug pursuant to a valid prescription or order in certain circumstances. (NRS 639.2396) **Section 8.5** of this bill requires a pharmacist to dispense up to a 12-month or the balance of the plan year, whichever is shorter, supply of contraceptives or their therapeutic equivalent pursuant to a valid prescription or order if: (1) the patient has previously received a 3-month supply of the same drug; (2) the patient has previously received a 9-month supply of the same drug or a supply of the same drug for the balance of the plan year in which the 3-month supply was prescribed or ordered, whichever is shorter; (3) the patient is insured by the same health insurance plan; and (4) a provider of health care has not specified in the prescription or order that a different supply of the drug is necessary.
