AN ACT relating to protective equipment; requiring the driver and any passenger of a moped or trimobile to wear protective headgear while the moped or trimobile is being driven on a highway; requiring the driver and any passenger of a moped to wear certain additional protective equipment; providing a penalty; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the driver and any passenger of a motorcycle, except a trimobile or moped, to wear protective headgear while the motorcycle is being driven on a highway. The driver and any passenger of a motorcycle or trimobile being driven on a highway must also wear protective glasses, goggles or a face shield unless the motorcycle or trimobile has a transparent windscreen. The Department of Motor Vehicles is required to adopt standards for such protective headgear, protective glasses, goggles, face shields and transparent windscreens. Existing law defines the term "motorcycle" to mean every motor vehicle equipped with a seat or saddle for use of the driver and designed to travel on not more than three wheels in contact with the ground. This definition is sufficiently broad to include a trimobile. (NRS 486.041, 486.231) **Section 1** of this bill requires the driver and any passenger of: (1) a moped or trimobile to wear protective headgear; and (2) a moped to wear protective glasses, goggles or a face shield unless the moped has a transparent windscreen. Existing law makes a violation of these provisions a misdemeanor. (NRS 486.381)
