AN ACT relating to public financial administration; creating the K-12 Public Education Stabilization Account; reallocating money reverted from the State Distributive School Account; revising provisions governing the setting aside of reserves out of appropriated or other funds to meet emergencies; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Section 2 of this bill creates the K-12 Public Education Stabilization Account within the State General Fund and requires the State Controller to deposit any money reverted from the State Distributive School Account at the close of each odd-numbered fiscal year into two accounts in equal amounts: (1) the K-12 Public Education Stabilization Account; and (2) the Account for Programs for Innovation and the Prevention of Remediation. **Section 2** also sets a maximum allowed balance in the K-12 Public Education Stabilization Account and provides for the deposit of any credit which exceeds the maximum balance into certain other funds and accounts. **Sections 4 and 5** of this bill authorize the Superintendent of Public Instruction to submit a request to the Legislature or, if the Legislature is not in session, to the Interim Finance Committee, for an allocation from the K-12 Public Education Stabilization Account to cover a shortfall in the State Distributive School Account. **Section 3** of this bill requires that all available allocations be made from the K-12 Public Education Stabilization Account to cover the shortfall before any allocation to cover the shortfall is made from the Account to Stabilize the Operation of the State Government.

Section 6 of this bill caps the amount of money that may be set aside as proposed reserves to meet emergencies for the State Distributive School Account and certain other funds and accounts for education during a fiscal year. Any such reserve is limited to the average that is reserved for all other departments,

12 institutions and agencies of the Executive Department of the State
13 Government, the Chief, with the approval in writing of the
14 Governor, may require the State Controller or the head of each such
15 department, institution or agency to set aside a reserve in such
16 amount as the Chief may determine, out of the total amount
17 appropriated or out of other funds available from any source
