Approximately \$4 million from federal mining leasing revenue is used to fund a portion of the Distributive School Account (DSA) and NDE is unable to determine an exact amount of how much of the \$4 million will specifically impacted by a ban on fracking. The breakdown of the revenue by type of mineral source and how much relates to oil and gas that would be impacted is not available. However, any reduction in federal leasing revenues resulting from the passage of this bill would need to be replaced by General Funds.
