Explanation

(Use Additional Sheets of Attachments, if required)

Reprint 2 removes the increased minimum wage provisions and thus DETR can remove the fiscal note on that front. DETR does not have the ability to determine the fiscal impact at this time. Any fluctuation in the number of employers that choose to pay the reduced minimum wage with the health insurance as required or opt for the higher minimum wage would impact the amount paid into the Unemployment Insurance Trust Fund, but the amount cannot be determined.
