Explanation

(Use Additional Sheets of Attachments, if required)

This bill mandates a program that is currently voluntary. The non-federal share is then applied against the political subdivision contribution threshold. By mandating this program, it would be unlikely that this bill alone would cause the political threshold to be exceeded, but in combination with other bills it has the potential for the threshold to be exceeded. If the threshold is exceeded, then the State of Nevada would not be eligible for the enhanced Federal Medical Assistance Percentage (FMAP) for any Medicaid-eligible services.
