Explanation

(Use Additional Sheets of Attachments, if required)

Although the State Board of Pharmacy and the Investigation Division work cooperatively to track and monitor prescription activity, the Investigation Division does not manage the computerized Prescription Monitoring Program as it pertains to the current data field capabilities. As such, the Investigation Division will defer to the State Board of Pharmacy regarding the current capabilities of the Prescription Monitoring Program and potential related fiscal impacts to the system. With regard to the remainder of the bill related to law enforcement employers entering certain information, the Investigation Division may require additional staff to track and upload the required information into the Prescription Monitoring Program; however, specifics cannot be determined without more analysis and/or information concerning how much workload would be generated.
