Local Government Responses
S.B. 59 / BDR 40 - 386

City/County: City of Henderson Approved by: Mike Cathcart, Business Operations Manager Comment: This bill could potentially have a fiscal impact to the City of Henderson depending on the interpretation of how often a police officer would need to enter data into a statewide database. Often times drug overdoses are handled by paramedics as the first responders and the Coroner's Office as the investigative office. At times police will respond to these calls, but not in all circumstances. If police departments will be required to respond to additional calls that they are not responding to currently and obtain search warrants for those calls then the cost could be substantial.

City/County: City of Reno Approved by: Tillery Williams , Management Analyst Comment: This would require training and software and possibly a new employee to access the database and there would be costs associated with that. The bill would have an impact but costs can't be determined at this time.

No Impact	\$0	\$0	\$0	\$0

City/County: Clark County Approved by: David Dobrzynski, Asst. Director of Finance Comment: Requires law enforcement officers to report various information regarding the potential violation of prescribed controlled substances and protects them from any criminal or civil liability related to the transmission of such information. While there'd be additional cost for staff in collecting and sending additional information to the State Board of Pharmacy and the Investigative Division of DPS, it's unknown as to how many instances would occur annually.

City/County: Elko County Approved by: Cash A. Minor, Assistant County Manager/CFO Comment: Would have minimal impact to law enforcement operations

City/County: Douglas County Approved by: Paul T. Howell, Undersheriff Comment: The requirements of reports being completed and the uploading of this information to the database will increase workload but I do not believe there will be an actual fiscal impact. If the increased workload does prove more than can be estimated as this time there could be an impact in additional personnel costs, therefore I feel most comfortable stating I cannot determine impact at this time.

Impact	FY 2016-17	FY 2017-18	FY 2018-19	Future Biennia
Cannot Be Determined	\$0	\$0	\$0	\$0

City/County: Washoe County Approved by: Lisa Gianoli, Lobbyist Comment: Cannot Be Determined The bill SB59 makes requirements of "law enforcement officers" regarding prescription medication violations of law. Many of these types of cases are not handled by a law enforcement officer but by a civilian report taker. This bill would require that a deputy sheriff take the report and comply with the reporting provisions.				
Impact	FY 2016-17	FY 2017-18	FY 2018-19	Future Biennia
Has Impact	\$0	\$0	\$0	\$0

City/County: **White Pine County**

Approved by: Elizabeth Frances, Finance Director

Comment: Requires the County to train officers, additional reporting by officers and a system for uploading information to a database which has restricted access. This would have adverse impact to the County in the form of additional unreimbursed costs. A reasonable estimate cannot be made at this time.
