Explanation

(Use Additional Sheets of Attachments, if required)

On the revenue side, there is a lack of information available relative to the number of possible events, along with the amount of wagering activity, to determine the fiscal impact over the next biennium. On the expense side, again, dependent upon the number of requests submitted pursuant to NGC Regulation 22.120, the agency does not anticipate the need for an additional agent (Enforcement) position, unless there is a significant increase in submissions. There will be no fiscal impact, however, to the agency's Tax and License Division for collecting and/or auditing this tax.
