Explanation:

BDR 39-370 establishes a system of statutory and regulatory control over providers of supported living arrangement services and community-based living arrangement services. In order for ADSD to fulfill the requirements detailed in the BDR, ADSD would require Quality Assurance (QA) staff to conduct an estimated 1,151 additional assessments annually. Estimates indicate this would require four (4) additional Quality Assurance Specialist positions to conduct these assessments. The detailed calculations are as follow: Developmental Services (DS) supports approximately 2,527 (SFY-2017 Budgeted Caseload) individuals through Supported Living (SLA) providers. SLA services are provided in a variety of settings including: the family home, the person's own home/apartment, or a 24 hour shared living home. The supports are based on the individuals needs and range from intermittent (as needed) to 24 hour supports. Currently, comprehensive environmental assessments are completed as follows: shared living 24 hour homes – minimum of one annually; own home/apartment – as needed basis; family home – none. Each comprehensive environmental assessment takes approximately five (5) hours to complete. For state fiscal year 2017 Developmental Services is budgeted to serve 2,527 individuals through the SLA program. Of these individuals; 1,376 are in a shared living 24 hour homes setting where a comprehensive environmental assessment is completed at least annually which leaves 1,151 living in their own home/apartment or their family home. The total estimated fiscal impact on ADSD for future biennia would be \$767,834.

The additional staffing needed was calculated by first, multiplying the 1,151 individuals living in their own home/apartment or their family home by the five(5) hours needed per assessment which equals 5,755 total hours. Second, the estimated number of available work hours for one position was calculated by subtracting 11 holidays, 15 days of annual leave, and 7.5 days sick leave from 2,080 which totals 1,812. Then a 15% (272 hours) allowance for administrative duties like meetings, training, etc. was applied for a total of 1,540 estimated available work hours per position. Third, the 5,755 total hours needed was divided by 1,540 (estimated number of available work hours per position) which equals 3.7 FTE which was rounded to 4.0 FTE.
