BDR 43-924/SB283 creates a special plate indicating support for the Vegas Golden Knights hockey team. The plate is exempt from the approval of the Commission on Special License Plates. No additional fee is required for the issuance of this plate, applicable registration and license fees and governmental services taxes still apply. The bill also allows the Department to accept gifts, grants and donations for the production of the plate. The bill is effective upon passage and approval.

The Department does not anticipate a fiscal impact to implement the measure. The provision to allow gifts/grants/donations is voluntary and no fee is associated to project revenue accurately. In addition, the Department interprets the language in the bill to allow it to continue to collect its portion of the fees assessed for plate factory operations and transfer fees as appropriate.

The Department estimates 185 hours of programming associated with developing the new plate to be completed with existing staff. However, the planning, design, manufacture and programming of the new plate will make it difficult to meet the proposed implementation date of passage and approval.
