School District: Douglas County School District Approved by: Jmatteoni, Director of Special Services Comment: The fiscal impact of this bill is difficult to determine. The potential loss of State and Federal funding would significantly impact any district's ability to deliver services to students who need them, especially if their efforts have been compliant with a corrective action plan. Additionally, the District may incur training cost as a result of recommended corrective action and we are unable to determine those costs at this time.

School District: Washoe County School District Approved by: Lindsay E. Anderson, Director of Government Affairs Comment: Washoe County School District expects that 6.3(d) and 7.1 will cost \$40,000 per day to train the 400 paraprofessionals serving special education students. We estimate at least 2 professional development days per year. There may be additional costs associated with corrective action plans but that cost cannot be determined in advance. This also assumes that the employee would be responsible for costs associated with additional fingerprinting.

Comment: The requirement to provide a program of training for certain school district and charter school personnel may require additional professional development and hours for personnel. In addition, the requirements for notifying parents of pupils with disabilities of certain information concerning special education programs and requiring the board of trustees of each school district and the governing body of each charter school to adopt a program for reporting certain information about pupils in the special education programs in each school may require additional resources as well.
