Section 25 of this bill directs the Legislative Committee on Health Care to review the provisions of the bill, including, without limitation, the rates paid for the provision of emergency services and care to patients to determine whether providers of such services are being adequately compensated for those services.

It is unclear at this time whether the Legislative Committee on Health Care could perform the review required by section 25 of the bill within the seven meetings for which it is currently budgeted or if additional meetings would be required. If additional meetings of the Committee are necessary to conduct the study required by section 25 of the bill, each additional meeting of the Committee would cost approximately \$2,300. Funding is available in the Legislative Fund for any additional meetings of the Committee that are necessary as a result of this legislation.
