AN ACT relating to motor vehicles; requiring the Department of Motor Vehicles to establish a program to allow for ~~electronic~~ registration and renewal of registration of certain fleets of vehicles owned by short-term lessors; allowing certificates of registration and license plate decals to continue to be valid without replacement in certain circumstances; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Under existing law, applications for the registration of a vehicle must generally be made to the Department of Motor Vehicles in person, if practicable, and must be made upon an application form furnished by the Department. (NRS 482.215) Such registration is valid for a period of 12 consecutive months, except that the owner of a fleet of vehicles may register the fleet on the basis of a calendar year. (NRS 482.206) Upon registration and payment of all applicable registration and governmental services taxes, the Department issues a certificate of registration, which must be renewed upon the expiration of the registration period. (NRS 482.260, 482.280) Upon renewal the Department may issue one or more license plate stickers. (NRS 482.265)

**Section 1** of this bill requires the Department to establish a vehicle registration program which allows a short-term lessor to register and renew the registration of a fleet of vehicles ~~through electronic applications and payment.~~ The Department is required to issue to a vehicle registered in such a manner a permanent certificate of registration and a permanent decal for the license plate, which remain valid for as long as the short-term lessor continues to renew the registration and maintain the vehicle in the fleet. The Department must provide electronic notification to the short-term lessor of the renewal requirements for each vehicle in the fleet. A short-term lessor that participates in the fleet registration program must pay the annual renewal fees and governmental services taxes required for each vehicle registered in this State, and must notify the Department if a vehicle is removed from the fleet. ~~Sections 2-8~~ **Sections 2-8** of this bill make conforming changes.
