provided to a child of a parent enrolled in certain educational

Legislative Counsel's Digest:

Existing federal law establishes the Child Care and Development Block Grant Act of
1990, a program that provides block grants to states to provide child care services for certain
children. (42 U.S.C. §§ 9857 et seq.) To receive such a block grant, a state is required to
submit a state plan that meets certain requirements and outlines the services that the state
proposes to fund using the grant. (42 U.S.C. § 9858c) Existing Nevada law requires the
Department of Health and Human Services to administer the Program for Child Care and
Development in this State. (NRS 422A.338) This bill requires the state plan for the Program
to include requirements that the Program: (1) include measures to increase the availability of
child care for children with disabilities; and (2) to the extent that money is available,
reimburse a portion of the cost of child care provided to the children of certain eligible parents
who are enrolled in certain educational or vocational programs that award a degree or
certificate. This bill further requires the Director of the Department to prepare an annual
report for the Legislature concerning the plan.
