EXPLANATION – Matter in *bolded italics* is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to public works; requiring the State Public Works Board of the State Public Works Division of the Department of Administration to submit biennially to the Governor and the Legislature its recommendations for projects for deferred maintenance; revising provisions governing the delegation by the Administrator of the Division of certain authority to a state agency relating to public works; revising the circumstances under which the Division is required to furnish engineering and architectural services to a state agency; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the State Public Works Board of the State Public Works Division of the Department of Administration to submit to the Governor and to the Legislature before October 1 of each even-numbered year its recommendations for projects for capital improvements in the next biennium. (NRS 341.083) **Section 2** of this bill requires the Board to also submit to the Governor and to the Legislature its recommendations for projects for deferred maintenance in the next biennium by that same deadline.

Under existing law, the Administrator of the Division is authorized to delegate certain authority of the Division relating to projects of construction, repair or reconstruction of the State, known as public works, to a requesting state agency relating to its own public work. (NRS 341.119) **Section 3** of this bill requires the Administrator to delegate such authority to a requesting state agency relating to its own public work if the agency demonstrates to the Administrator that it has sufficient experience in various aspects of designing and managing the construction of a public work. If the Administrator denies an agency's request for the delegation of such authority, **section 3** authorizes the state agency to file a written appeal with the State Public Works Board for a hearing on the request. **Section 1** of this bill makes a conforming change.

Existing law exempts the Division from the requirement of providing engineering and architectural services to certain state agencies for certain types of buildings and improvements. (NRS 341.141) **Section 4** of this bill also exempts the Division from the

requirement of providing engineering and architectural services for nonstructural remodeling or repair of buildings **and remodeling or repair of improvements** of the Nevada National Guard estimated to cost less than ~~[\$200,000]~~ **\$250,000**. In addition, **section 4** changes the exemption in existing law for buildings of the State Department of Conservation and Natural Resources in state parks or of the Department of Wildlife from nonresidential buildings with less than 1,000 square feet in floor area to buildings with less than 3,000 square feet in floor area.
