EXPLANATION – Matter in *bolded italics* is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to public construction; revising the procedure for determining the prevailing rate of wages; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law requires that mechanics and workers employed on certain public construction projects be paid at least the wage prevailing in the county in which the project is located for the type of work that the mechanic or worker performs. (NRS 338.020) Existing law also prescribes the manner in which the Labor Commissioner must determine the prevailing wage for such a project. (NRS 338.030) **Section 3** of this bill: (1) removes these specific requirements with which the Labor Commissioner must comply in determining the prevailing rate of wages; and (2) reduces the frequency by which the Labor Commissioner is required to survey contractors from annually to biennially. Because existing law authorizes the Labor Commissioner to adopt such regulations as necessary to enable him or her to carry out his or her duties, the Labor Commissioner may establish the manner of determining the prevailing rate of wages by regulation. (NRS 338.012)

**Section 3** also changes the geographical area for which the prevailing rate of wages is determined from a county to a region. **Section 1** of this bill establishes four such regions: (1) the Washoe Prevailing Wage Region; (2) the Northern Rural Prevailing Wage Region; (3) the Clark Prevailing Wage Region; and (4) the Southern Rural Prevailing Wage Region. **Section 2** of this bill makes a conforming change. Thus, mechanics and workers employed on public construction projects on which prevailing wages are required to be paid must be paid at least the wage prevailing in the region in which the project is located for their craft or type of work.

**Section 3** requires the Labor Commissioner to issue a determination of the prevailing rate of wages on October 1 of the odd-numbered year in which the survey was conducted and makes this rate effective for 2 years unless the rate is adjusted by the Labor Commissioner. Finally, **section 3** requires the Labor Commissioner to adjust the prevailing rate of wages on October 1 of each ~~odd-numbered~~ even-numbered year ~~and re-issue the rate~~ if: (1) the Labor Commissioner determined in the previous odd-numbered year that the prevailing rate of wages was collectively bargained and the collective bargaining agreement provides for such an adjustment; or (2) the Labor Commissioner determined in the previous odd-numbered year that the prevailing rate of wages was not collectively bargained and any change in the Consumer Price Index for All Urban Consumers, West Region (All Items) has occurred since October 1 of the previous odd-numbered year. **Section 3** requires the Labor Commissioner to reissue the rates, including any adjusted rates, on October 1 of each even-numbered year.
