AN ACT relating to regulatory bodies; revising provisions governing the scope of practice of physical therapists relating to the use of the technique of dry needling; revising provisions governing the duties and powers of the State Board of Oriental Medicine; revising provisions governing the licensing of doctors of Oriental medicine; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law sets forth provisions governing the licensure and regulation of physical therapists and doctors of Oriental medicine. (Chapters 634A and 640 of NRS) Existing law defines the scope of practice of physical therapy and restricts persons licensed to practice physical therapy from practicing other forms of healing. (NRS 640.024, 640.190) **Section 3** of this bill provides that the practice of Oriental medicine specifically includes dry needling as well as moxibustion and cupping. **Section 12 of this bill includes within the practice of physical therapy the use of the technique of dry needling, which is defined in section 11.5 of this bill.** **Section 12.5** of this bill ~~authorizes~~ **requires** the Nevada Physical Therapy Board to prescribe by regulation the scope of the use of the technique of dry needling by a physical therapist ~~[If the Nevada Physical Therapy Board adopts such regulations, section 12.5]~~ **and** requires that the regulations establish requirements for training that a physical therapist must successfully complete to administer treatment through the use of the technique of dry needling. ~~[Section 12 of this bill makes a conforming change.]~~ **Section 3.5** of this bill provides that a person is not practicing the healing art of Oriental medicine if the person is authorized to practice another healing art and is practicing within the scope of that authority, such as if a physical therapist is administering treatment through the technique of dry needling within the scope authorized pursuant to the regulations adopted by the Nevada Physical Therapy Board.

Section 2 of this bill authorizes the State Board of Oriental Medicine to issue an endorsement to practice acupuncture point injection therapy to a doctor of Oriental medicine who meets certain requirements. **Section 5** of this bill eliminates the authority of the Board in existing law to fix and pay a salary to the Secretary-Treasurer. (NRS 634A.060) **Section 6** of this bill eliminates the requirement in existing law that the Board establish and maintain a list of accredited schools and colleges of Oriental medicine. (NRS 634A.080)

Existing law authorizes the establishment and maintenance of a school or college of Oriental medicine in this State if its establishment and curriculum is approved by the Board. (NRS 634A.090) **Section 7** of this bill: (1) eliminates the requirement that the Board annually approve the curriculum; and (2) requires that the school or college be accredited by or have

received at least candidacy status for accreditation from the Accreditation Commission for Acupuncture and Oriental Medicine or its successor organization and hold a current license issued by the Commission on Postsecondary Education. **Section 4** of this bill makes a conforming change.

Existing law requires an applicant for a license to practice as a doctor of Oriental medicine to: (1) pass a national examination in Oriental medicine administered by a national organization approved by the Board and a practical examination approved by the Board that tests certain subject areas; and (2) meet certain educational and other requirements. (NRS 634A.120, 634A.140) **Section 8** of this bill requires such an applicant to pass each examination required and administered by the National Certification Commission for Acupuncture and Oriental Medicine or its successor organization for certification in Oriental medicine. Additionally, **section 8** eliminates several subjects on the examination approved by the Board. For issuance of a license, **section 9** of this bill: (1) revises the educational requirements; (2) requires applicants to hold a current certification in Oriental medicine issued by the National Certification Commission for Acupuncture and Oriental Medicine or its successor organization; and (3) authorizes the counting of certain work experience in lieu of educational experience for applicants who attended a school or college of Oriental medicine before January 1, 2008.

Sections 10 and 11 of this bill consolidate the requirements relating to the renewal of a license.
