AN ACT relating to education; requiring each public school in a school district, including a charter school, to establish and maintain a school library that meets certain standards; requiring the State Board of Education to adopt regulations prescribing the minimum standards for a school library; prescribing requirements and exceptions for employing a teacher librarian; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law requires the board of trustees of a school district to purchase all new library books which are necessary and have been approved by the State Board of Education to carry out the mandates of the school curriculum. (NRS 393.170) With certain exceptions, existing law also requires a school district to spend in each school year a certain amount of money on library books. (NRS 387.207)

**Section 7** of this bill requires each public school in a school district, including each charter school, to establish and maintain a school library that provides library services to the pupils, teachers and administrators of the school. **Section 2.5** of this bill defines “charter school” as a charter school that enrolls 500 or more pupils and excludes a charter school that only offers a full-time program of distance education. **Section 7** also requires the State Board of Education to adopt regulations that prescribe the minimum requirements of a school library.

With certain exceptions provided in **section 9** of this bill, **section 8** of this bill requires each public school and each charter school to employ a teacher librarian. **Section 6.7** of this bill defines “teacher librarian” as a person who provides library

services in a school library and who: (1) holds a license to teach; and (2) may hold a certification as a professional school library media specialist issued by the National Board for Professional Teaching Standards. **Section 8** prohibits the board of trustees of a school district and the governing body of a charter school from giving preference to certain employees who provide library services. **Section 9** provides that a school is not required to employ a teacher librarian if: (1) the school is unable to employ a teacher librarian and is granted permission by the superintendent of schools of the school district or the sponsor of the charter school, as applicable, to jointly employ a teacher librarian with another such school; or (2) the school is located in a county whose population is less than 100,000 (currently all counties other than Clark and Washoe Counties), is unable to employ certain persons to provide library services and is granted a waiver by the State Board of Education.

**Section 9.5** of this bill grandfathers in current school library assistants until July 1, 2025, so that those school library assistants may perform the duties assigned to a teacher librarian set forth in this bill without obtaining a license to teach or any other credentials or endorsements until that date.
