

Senate Bill No. 347—Senators Settelmeyer and Goicoechea

Joint Sponsor: Assemblyman Wheeler

CHAPTER.....

AN ACT relating to hemp; revising provisions relating to the growth, handling and production of hemp; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Existing law authorizes the growing and cultivation of industrial hemp for purposes relating to research and the growing and handling of industrial hemp and the production of agricultural hemp seed by persons registered with the State Department of Agriculture. (Chapter 557 of NRS) On December 20, 2018, the President of the United States signed the Agricultural Improvement Act of 2018 into law. Section 10113 of the Act authorizes the production of hemp under the primary jurisdiction of a state or tribal government if the state or tribal government submits a plan to the United States Secretary of Agriculture that satisfies certain requirements. (Public Law 115-334) Because federal law now refers to plants of the genus *Cannabis sativa* L. with a THC concentration of not more than 0.3 percent as “hemp” rather than “industrial hemp,” **sections 3-6, 9, 13, 15 and 17-21** of this bill revise various sections of state law to use the term “hemp” for this plant and its derivatives.

**Section 1** of this bill requires each site used for growing, handling or producing hemp to be certified and registered with the State Department of Agriculture. **Section 14** of this bill authorizes the Department to adopt regulations for the certification and registration of such sites. **Section 5** of this bill revises the definition of the term “handler” to remove the word “raw” when referencing the handling of hemp. **Section 6** of this bill revises the definition of the term “industrial hemp” to be consistent with federal law. **Section 8** of this bill exempts a person who purchases hemp or a commodity or product made using hemp for resale or who transports hemp or a commodity or product made using hemp from the requirements of state law relating to growers, handlers and producers of hemp in certain circumstances.

**Section 9** of this bill requires an applicant for registration as a grower, handler or producer to include information concerning the land and crop management practices of the applicant in an application for registration. **Section 9** requires an applicant for renewal of registration as a grower, handler or producer to submit certain information. **Section 9** authorizes the Department to establish by regulation: (1) provisions relating to the transfer of a registration as a grower, handler or producer; and (2) fees for services performed by the Department.

**Section 9** also requires a grower, handler or producer who intends to surrender or not renew a registration to notify the Department and submit a plan for the effective disposal or eradication of certain hemp. **Section 16** of this bill requires the Department to impose an administrative fine against a person who fails to comply with this requirement.

**Section 12** of this bill requires a grower or handler to keep and maintain certain records for a period of not less than 3 years. **Section 12** requires a grower to submit to the Department and comply with an approved plan to dispose of a crop that is found to contain a THC concentration that exceeds the maximum THC concentration established by federal law for hemp. **Section 12** authorizes the Department to impose an administrative fine for certain land or crop management

practices. **Section 13** of this bill requires a grower to submit to the Department the legal description of property on which the crop of the grower is located.

**Section 14** of this bill authorizes the Department to adopt regulations necessary to comply with any requirement imposed by the United States Department of Agriculture. **Section 14** prohibits a grower from obtaining agricultural hemp seed which was produced in this State by a person other than a producer or produced in another state by a person not registered and approved to produce and sell agricultural hemp seed in that state. **Section 14** requires a handler to obtain hemp from a grower and agricultural hemp seed from a producer.

**Section 15** of this bill eliminates provisions that require a handler to submit a commodity or product made using hemp which is intended for human consumption for certain testing. **Section 15** requires a grower or producer to submit, before harvesting, a sample of each crop to the Department or a laboratory approved by the Department for testing to determine the THC concentration of the crop. If a crop is harvested before such testing is completed, **section 15** authorizes the Department to detain, seize or embargo the crop.

**Section 17** of this bill eliminates provisions that make growing or handling hemp or producing agricultural hemp seed without a registration a misdemeanor. **Section 17** instead requires the Department to impose an administrative fine on such a person and report the person to the appropriate local law enforcement agency for investigation.

**Section 22** of this bill repeals provisions that provide for the growth or cultivation of industrial hemp for purposes relating to research. **Sections 2, 5 and 7-12** of this bill make conforming changes.
