AN ACT relating to education; creating the State Education Fund; revising the method for determining the amount of and distributing money to support the operation of the public schools in this State; establishing certain requirements for the accounting and use of such money; establishing requirements for the establishment of budgetary estimates relating to the public schools in this State; creating the Commission on School Funding and establishing its duties; establishing provisions relating to reports of expenditures by public schools; directing certain revenues to be deposited in the State Education Fund; making an appropriation; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law declares that “the proper objective of state financial aid to public education is to ensure each Nevada child a reasonably equal educational opportunity” and establishes the Nevada Plan as a formula for distribution of state financial aid to the public schools in this State to accomplish that objective. (NRS 387.121) As part of the Nevada Plan, the Legislature establishes, during each legislative session and for each school year of the biennium, an estimated statewide average basic support guarantee per pupil. (NRS 387.122) This is the per pupil amount that is “guaranteed” on a statewide basis through a combination of state money and certain local revenues, supplemented by other local revenues which are not “guaranteed” by the state. The basic support guarantee for each school district is computed by multiplying the basic support guarantee per pupil that is established by law for the school district for each school year by pupil enrollment. (NRS 387.121-387.1223) In addition to the basic support guarantee per pupil, state financial aid to public education is provided through various programs, commonly

known as “categorical funding,” that target specific purposes or populations of pupils for additional support. Such programs include, without limitation, the Account for the New Nevada Education Funding Plan, Zoom schools and Victory schools. (NRS 387.129-387.139; section 1 of chapter 544, Statutes of Nevada 2017, p. 3768; section 2 of chapter 389, Statutes of Nevada 2015, p. 2199)

Beginning with the 2021-2023 biennium, this bill generally replaces the Nevada Plan with the Pupil-Centered Funding Plan, which combines money raised pursuant to state law at the local level with state money to provide a certain basic level of support to each pupil in this State which is adjusted: (1) to account for variation in the local costs to provide a reasonably equal educational opportunity to pupils; and (2) for the costs of providing a reasonably equal educational opportunity to pupils with certain additional educational needs. **Section 15** of this bill designates the plan created by this bill as the Pupil-Centered Funding Plan and expresses the intent of the Legislature regarding its creation. Specifically, **section 2** of this bill creates the State Education Fund and identifies numerous sources of revenues to be deposited into the Fund, in addition to direct legislative appropriations from the State General Fund. **Section 2** also authorizes the Superintendent of Public Instruction to create one or more accounts in the State Education Fund for the purpose of administering money received from the Federal Government. **Section 3** of this bill creates the Education Stabilization Account in the State Education Fund and provides for the funding of the Account and the use of the money in the Account. **Sections 13, 26, 27, 49, 51, 52, 59-61, 64 and 66-73** of this bill direct certain sources of revenues to the State Education Fund. **Sections 17, 19, 22-25, 31-35, 37-42, 45, 47, 48, 50, 53-56, 62, 63 and 65** of this bill make conforming changes for the direction of such sources of revenues to the State Education Fund and the replacement of the State Distributive School Account with the State Education Fund.

**Section 4** of this bill requires the Legislature, after making a direct legislative appropriation to the State Education Fund, to determine the statewide base per pupil funding amount for each fiscal year of the biennium. **Section 4** expresses the intent of the Legislature that the statewide base per pupil funding amount should, to the extent practicable, increase each year by not less than inflation. **Section 4** requires the Legislature to appropriate the whole of the State Education Fund, less the money in the Education Stabilization Account or any account created by the Superintendent to receive federal money, to fund, in an amount determined to be sufficient by the Legislature: (1) the operation of the State Board of Education, the Superintendent of Public Instruction and the Department of Education; (2) the food service, transportation and similar services of the school districts; (3) the operation of each school district for all pupils generally through adjusted base per pupil funding for each pupil enrolled in the school district; (4) the operation of each charter school and university school for profoundly gifted pupils for all pupils generally through a statewide base per pupil funding amount for each pupil enrolled in such a school, with an adjustment for certain schools; and (5) the additional educational needs of English learners, at-risk pupils, pupils with disabilities and gifted and talented pupils through additional weighted funding for each such pupil. **Section 4** specifies that additional weighted funding be expressed as a multiplier to be applied to the statewide base per pupil funding amount and that a pupil who belongs to more than one category receive only the additional weighted funding for the single category with the highest multiplier. **Section 4** generally prohibits the use of additional weighted funding for collective bargaining. **Section 58** of this bill generally prohibits the use of a school district’s ending fund balance for collective bargaining.

The Nevada Constitution requires that the revenue from a tax upon the net proceeds of all minerals be appropriated to each county and apportioned among the respective governmental units within the county, including the school district. (Nev.

Const. Art. 10, § 5) **Sections 2 and 61** of this bill require the proceeds of such a tax that are apportioned to each school district to be deposited to the credit of the State Education Fund. **Section 4** deems such money to be the first money appropriated as part of the adjusted base per pupil funding and weighted funding to the county school district from which the money originated. To the extent that money exceeds the adjusted base per pupil funding and weighted funding for the county school district to which it was apportioned, paragraph (b) of subsection 6 of **section 4** of this bill requires the excess to be transferred to the county school district from which the money originated and authorizes the expenditure of that money as a continuing appropriation. **Section 4** also specifies that the purposes for which the money may be used include mitigating the adverse effects of the cyclical nature of the mining industry on the school district. These effects include, without limitation, significant and rapid changes in the number of pupils enrolled in the school district which are a unique impediment to pupils receiving a reasonably equal educational opportunity in the counties in which the mining industry is pervasive and cannot be reasonably addressed in a uniform statewide funding plan.

**Sections 5-7** of this bill establish certain factors which are applied to the statewide base per pupil funding amount to create the adjusted base per pupil funding for each school district and certain charter schools and university schools for profoundly gifted pupils. Specifically, **section 5** of this bill establishes a cost adjustment factor by which the statewide base per pupil funding amount is adjusted for each school district and certain charter schools and university schools for profoundly gifted pupils to account for variation between the counties in the cost of living and the cost of labor. **Section 6** of this bill establishes an adjustment for each necessarily small school in a school district to account for the increased cost to operate certain schools which must necessarily be smaller than the school could be most efficiently operated. **Section 7** of this bill establishes a small district equity adjustment by which the statewide base per pupil funding amount is adjusted for each school district to account for the increased cost per pupil to operate a school district in which relatively fewer pupils are enrolled. **Sections 5-7** require the Department of Education to review and determine whether revisions are necessary to the method by which these adjustments are calculated in certain circumstances.

**Section 8** of this bill requires each school district to account separately for the adjusted base per pupil funding received by the school district and deduct an amount of not more than the amount prescribed by the Department by regulation of the adjusted base per pupil funding for the administrative expenses of the school district. **Section 8** requires the remainder of the adjusted base per pupil funding to be distributed to the public schools in the school district in a manner that ensures each pupil in the school district receives a reasonably equal educational opportunity. Similarly, **section 8** requires each school district to account separately for all weighted funding received by the school district. **Section 8** requires all weighted funding to be distributed directly to each school in which the relevant pupils are enrolled. **Section 8** also: (1) requires each public school to account separately for the adjusted base per pupil funding and each category of weighted funding the school receives; (2) requires weighted funding to be used for each relevant pupil to supplement the adjusted base per pupil funding for the pupil and provide such educational programs, services or support as are necessary to provide the pupil a reasonably equal educational opportunity; and (3) limits the use of weighted funding for at-risk pupils and English learners to certain services. **Section 8** additionally contains certain provisions relating to the separate accounting of money for pupils with disabilities and gifted and talented pupils which are moved into this section from a separate provision of existing law. **Sections 14, 16, 18, 20, 21, 28-30, 36, 43, 44, 46, 57, 74 and 80** of this bill make conforming changes.

**Section 9** of this bill generally requires the Governor, when preparing the proposed executive budget and to the extent practicable, to reserve an amount of

money in the State General Fund for transfer to the State Education Fund which is sufficient to fully fund certain increases in the amount of money in the State Education Fund if the Economic Forum projects an increase in state revenue in the upcoming biennium. If the Economic Forum projects a decrease in state revenue, **section 9** requires the Governor to reserve an amount of money in the State General Fund sufficient to ensure that the amount of money transferred from the State General Fund to the State Education Fund does not decrease by a greater percentage than the projected decline in state revenues. **Section 9** requires the Governor to include in the proposed executive budget recommendations for the statewide base per pupil funding amount and the multiplier for each category of pupils. **Section 9** requires the Governor to consider the recommendations of the Commission on School Funding for an optimal level of school funding and authorizes the Governor to reserve an additional amount of money for transfer to the State Education Fund to fund any such recommendation. **Section 9** authorizes the Governor, as part of the proposed executive budget, to recommend revisions to education funding or additional education funding. Finally, **section 9** authorizes the Governor to include in the proposed executive budget a recommendation for such funding for the public schools in this State as the Governor determines to be appropriate if the Governor determines that preparing a proposed executive budget as described in **section 9** would be impracticable. If the Governor includes such a recommendation, the Governor must also recommend appropriate legislation to improve the method for determining funding for the public schools in this State.

**Section 10** of this bill creates the Commission on School Funding and prescribes its membership. **Section 11** of this bill prescribes the duties of the Commission. **Section 76** of this bill requires the Commission to project the distribution of education funding for the 2019-2021 biennium as if the Pupil-Centered Funding Plan were in effect and compare that projection to the projected distribution of education funding for the 2019-2021 biennium under existing law. **Section 76** additionally requires each school district to project its budget for the 2019-2021 biennium as if the Pupil-Centered Funding Plan were in effect, compare that projection to its projected budget for the 2019-2021 biennium under existing law and submit both budgets to the Commission. Finally, **section 76** requires the Commission to make recommendations for the implementation of the Pupil-Centered Funding Plan to the Governor and Legislature.

**Section 12** of this bill establishes certain reporting requirements for the Department of Education and for each school district and public school relating to educational expenditures. **Section 74.5** of this bill makes an appropriation for the costs of implementing this bill.

(t) *The direct legislative appropriation from the State General Fund required by subsection 3.*

3. *In addition to money from any other source provided by law, support for the State Education Fund must be provided by direct legislative appropriation from the State General Fund in an amount determined by the Legislature to be sufficient to fund the operation of the public schools in this State for kindergarten through grade 12 for the next ensuing biennium for the population reasonably estimated for that biennium. Money in the State Education Fund does not revert to the State General Fund at the end of a fiscal year, and the balance in the State Education Fund must be carried forward to the next fiscal year.*

4. *Money in the Fund must be paid out on claims as other claims against the State are paid.*

5. *The Superintendent of Public Instruction may create one or more accounts in the State Education Fund for the purpose of administering any money received from the Federal Government for the support of education and any State money required to be administered separately to satisfy any requirement imposed by the Federal Government. The money in any such account must not be considered when calculating the statewide base per pupil funding amount or appropriating money from the State Education Fund pursuant to section 4 of this act. The interest and income earned on the money in any such account, after deducting any applicable charges, must be credited to the account.*

**Sec. 3.** 1. *The Education Stabilization Account is hereby created in the State Education Fund. Except as otherwise provided in subsections 3 and 4, each year after the close of the previous fiscal year and before the issuance of the State Controller's annual report, each county school district shall transfer from the county school district fund to the Education Stabilization Account any amount by which the actual ending fund balance of the county school district fund exceeds 16.6 percent of the total actual expenditures for the fund. The interest and income earned on the money in the Account, after deducting any applicable charges, must be credited to the Account.*

2. *Money transferred pursuant to subsection 1 to the Education Stabilization Account is a continuing appropriation solely for the purpose of authorizing the expenditure of the transferred money for the purposes set forth in this section.*

3. *The balance in the Educational Stabilization Account must not exceed 15 percent of the total of all appropriations and authorizations from the State Education Fund, excluding the Education Stabilization Account or any account created pursuant to subsection 5 of section 2 of this act, for the immediately*

preceding fiscal year. Any money transferred to the Education Stabilization Account which exceeds this amount must instead be transferred to the State Education Fund.

4. If the Interim Finance Committee finds that the collection of revenue in any fiscal year will result in the State Education Fund receiving 97 percent or less of the money authorized for expenditure from the State Education Fund, the Committee shall by resolution establish an amount of money to transfer from the Education Stabilization Account to the State Education Fund and direct the State Controller to transfer that amount to the State Education Fund. The State Controller shall thereupon make the transfer.

5. The balance remaining in the State Education Fund, excluding the balance remaining in the Education Stabilization Account or any account created pursuant to subsection 5 of section 2 of this act, that has not been committed for expenditure on or before June 30 of each fiscal year must be transferred to the Education Stabilization Account to the extent that such a transfer would not cause the balance in the Education Stabilization Account to exceed the limit established in subsection 3.

**Sec. 4. 1.** After a direct legislative appropriation is made to the State Education Fund from the State General Fund pursuant to section 2 of this act, the Legislature shall determine the statewide base per pupil funding amount for each fiscal year of the biennium, which is the amount of money expressed on a per pupil basis for the projected enrollment of the public schools in this State, determined to be sufficient by the Legislature to fund the costs of all public schools in this State to operate and provide general education to all pupils for any purpose for which specific funding is not appropriated pursuant to paragraph (a), (b) or (e) of subsection 2. It is the intent of the Legislature that the statewide base per pupil funding amount for any fiscal year, to the extent practicable, be not less than the statewide base per pupil funding amount for the immediately preceding fiscal year, adjusted by inflation, unless the amount of money contained in the State Education Fund, excluding the Education Stabilization Account or any account created pursuant to subsection 5 of section 2 of this act, decreases from the preceding fiscal year. If the amount of money contained in the State Education Fund, excluding the Education Stabilization Account or any account created pursuant to subsection 5 of section 2 of this act, decreases from the preceding fiscal year, it is the intent of the Legislature that a proportional reduction be made in both the statewide base per pupil funding amount and the weighted funding appropriated pursuant to paragraph (e) of subsection 2.

2. After a direct legislative appropriation is made to the State Education Fund from the State General Fund pursuant to section 2 of this act, the money in the State Education Fund, excluding any amount of money in the Education Stabilization Account or in any account established pursuant to subsection 5 of section 2 of this act, must be appropriated as established by law for each fiscal year of the biennium for the following purposes:

(a) To the Department, an amount of money determined to be sufficient by the Legislature, when combined with any other resources available for this purpose, to fund the operation of the State Board, the Superintendent of Public Instruction and the Department, including, without limitation, the statewide administration and oversight of the public schools and any educational programs administered by this State.

(b) To each school district, an amount of money determined to be sufficient by the Legislature, when combined with any other resources available for this purpose, to provide food services and transportation for pupils and any other similar service that the Legislature deems appropriate.

(c) To each school district, an amount of money determined to be sufficient by the Legislature, when combined with any other resources available for this purpose, to provide adjusted base per pupil funding for each pupil estimated to be enrolled in the school district.

(d) To each charter school or university school for profoundly gifted pupils, an amount of money determined to be sufficient by the Legislature, when combined with any other resources available for this purpose, to provide:

(1) The statewide base per pupil funding amount for each pupil estimated to be enrolled full-time in a program of distance education provided by the charter school or university school for profoundly gifted pupils; and

(2) Adjusted base per pupil funding for each pupil estimated to be enrolled in the charter school or university school for profoundly gifted pupils other than a pupil identified in subparagraph (1).

(e) To each school district, charter school or university school for profoundly gifted pupils, an amount of money determined to be sufficient by the Legislature, when combined with any other resources available for this purpose, to provide additional weighted funding for each pupil estimated to be enrolled in the school district, charter school or university school for profoundly gifted pupils who is:

(1) An English learner;

(2) An at-risk pupil;

\* S B 5 4 3 R 2 \*

(3) A pupil with a disability; or

(4) A gifted and talented pupil.

3. The adjusted base per pupil funding appropriated pursuant to paragraph (c) of subsection 2 for each school district must be determined by applying the cost adjustment factor established pursuant to section 5 of this act which applies to the school district, the adjustment for necessarily small schools established pursuant to section 6 of this act which applies to the school district and the small district equity adjustment established pursuant to section 7 of this act which applies to the school district to the statewide base per pupil funding amount.

4. The adjusted base per pupil funding appropriated pursuant to subparagraph (2) of paragraph (d) of subsection 2 for each charter school or university school for profoundly gifted pupils must be determined by applying the cost adjustment factor established pursuant to section 5 of this act which applies to the charter school or university school to the statewide base per pupil funding amount.

5. The weighted funding appropriated pursuant to paragraph (e) of subsection 2 must be established separately for each category of pupils identified in that paragraph and expressed as a multiplier to be applied to the statewide base per pupil funding amount determined pursuant to subsection 1. A pupil who belongs to more than one category of pupils must receive only the weighted funding for the single category to which the pupil belongs which has the largest multiplier. It is the intent of the Legislature that, to the extent practicable:

(a) The multiplier for each category of pupils for any fiscal year be not less than the multiplier for the immediately preceding fiscal year unless:

(1) The amount of money contained in the State Education Fund, excluding the Education Stabilization Account or any account created pursuant to subsection 5 of section 2 of this act, decreases from the preceding fiscal year, in which event it is the intent of the Legislature that a proportional reduction be made in both the statewide base per pupil funding amount and the weighted funding appropriated pursuant to paragraph (e) of subsection 2; or

(2) The amount of money contained in the State Education Fund, excluding the Education Stabilization Account or any account created pursuant to subsection 5 of section 2 of this act, increases from the preceding fiscal year but in an amount which, after funding the appropriations required by paragraphs (a) to (d), inclusive, of subsection 2, is insufficient to fund the multiplier for each category of pupils, in which event it is the intent of the

1 *Legislature that the remaining money in the State Education*  
2 *Fund be used to provide a multiplier for each category of pupils*  
3 *which is as close as practicable to the multiplier for the preceding*  
4 *fiscal year;*

5 *(b) The recommendations of the Commission for the multiplier*  
6 *for each category of pupils be considered and the multiplier for*  
7 *one category of pupils may be changed by an amount that is not*  
8 *proportional to the change in the multiplier for one or more other*  
9 *categories of pupils if the Legislature determines that a*  
10 *disproportionate need to serve the pupils in the affected category*  
11 *exists; and*

12 *(c) If the multipliers for all categories of pupils in a fiscal year*  
13 *are increased from the multipliers in the immediately preceding*  
14 *fiscal year, a proportional increase is considered for the statewide*  
15 *base per pupil funding amount.*

16 *6. For any money identified in subsection 4 of NRS 362.170*  
17 *which is deposited to the credit of the State Education Fund:*

18 *(a) The amount of such money for the county from which the*  
19 *money was collected that does not exceed the total amount of*  
20 *money appropriated pursuant to subsection 2 to the county school*  
21 *district is deemed to be the first money appropriated pursuant to*  
22 *subsection 2 for that county school district.*

23 *(b) The amount of such money for the county from which the*  
24 *money was collected which exceeds the total amount of money*  
25 *appropriated pursuant to subsection 2 to the county school district*  
26 *must be transferred to the county school district and is hereby*  
27 *authorized for expenditure as a continuing appropriation for the*  
28 *purpose of mitigating the adverse effects of the cyclical nature of*  
29 *the industry of extracting and processing minerals on the ability of*  
30 *the county school district to offer its pupils a reasonably equal*  
31 *educational opportunity.*

32 *7. The weighted funding appropriated pursuant to paragraph*  
33 *(e) of subsection 2:*

34 *(a) May not be used to settle or arbitrate disputes between a*  
35 *recognized organization representing employees of a school*  
36 *district or the governing body of a charter school and the school*  
37 *district or governing body or to settle any negotiations; and*

38 *(b) May not be used to adjust the district-wide schedules of*  
39 *salaries and benefits of the employees of a school district.*

40 **Sec. 5. 1. To account for variation between the counties of**  
41 **this State in the cost of living and the cost of labor, the**  
42 **Department shall establish by regulation cost adjustment factors**  
43 **for the school district located in, and each charter school that**  
44 **provides classroom-based instruction in, each county of this State.**

2. Not later than May 1 of each even-numbered year, the Department shall review and determine whether revisions are necessary to the cost adjustment factors for the school district located in each county of this State. The Department shall present the review and any revisions at a meeting of the Legislative Committee on Education for consideration and recommendations by the Committee. After the meeting, the Department shall consider any recommendations of the Legislative Committee on Education, determine whether to include those recommendations and adopt by regulation any revision to the cost adjustment factors. The Department shall submit any revision to the cost adjustment factors to each school district, the Governor and the Director of the Legislative Counsel Bureau.

**Sec. 6.** 1. To account for the increased cost to a school district to operate a public school for a small number of pupils which may be necessary in certain circumstances, the Department shall establish by regulation a method to calculate an adjustment for each necessarily small school.

2. Not later than May 1 of each even-numbered year, the Department shall review and determine whether revisions are necessary to the method for determining the adjustment for each necessarily small school. The Department shall present the review and any revisions at a meeting of the Legislative Committee on Education for consideration and recommendations by the Committee. After the meeting, the Department shall consider any recommendations of the Legislative Committee on Education, determine whether to include those recommendations and adopt by regulation any revision to the method. The Department shall submit any revision to the method to each school district, the Governor and the Director of the Legislative Counsel Bureau.

**Sec. 7.** 1. To account for the increased cost per pupil to operate a school district in which relatively fewer pupils are enrolled, the Department shall establish by regulation a small district equity adjustment.

2. Not later than May 1 of each even-numbered year, the Department shall review and determine whether revisions are necessary to the method for calculating the small district equity adjustment. The Department shall present the review and any revisions at a meeting of the Legislative Committee on Education for consideration and recommendations by the Committee. After the meeting, the Department shall consider any recommendations of the Legislative Committee on Education, determine whether to include those recommendations and adopt by regulation any revision to the method. The Department shall submit any revision

1 *to the method to each school district, the Governor and the*  
2 *Director of the Legislative Counsel Bureau.*

3 **Sec. 8.** 1. *Except as otherwise provided in subsection 2,*  
4 *each school district shall ensure that all adjusted base per pupil*  
5 *funding received by the school district pursuant to paragraph (c)*  
6 *of subsection 2 of section 4 of this act is accounted for separately*  
7 *and, after a deduction for the administrative expenses of the*  
8 *school district in an amount which does not exceed the amount*  
9 *prescribed by the Department by regulation for each school*  
10 *district. Any money received by a school district to support a*  
11 *necessarily small school, as determined pursuant to section 6 of*  
12 *this act, must be distributed to such schools. The adjusted base per*  
13 *pupil funding provided to each school district must:*

14 (a) *Be distributed by each school district to its public schools*  
15 *in a manner that ensures each pupil in the school district receives*  
16 *a reasonably equal educational opportunity.*

17 (b) *Be used to support the educational needs of all pupils in*  
18 *the school district, including, without limitation, operating each*  
19 *public school in the school district, training and supporting*  
20 *educational personnel and carrying out any program or service*  
21 *established by, or requirement imposed pursuant to, this title for*  
22 *any purpose for which specific funding is not appropriated*  
23 *pursuant to paragraph (a), (b) or (e) of subsection 2 of section 4 of*  
24 *this act.*

25 2. *If a school district determines that an additional amount of*  
26 *money is necessary to satisfy requirements for maintenance of*  
27 *effort or any other requirement under federal law for pupils with*  
28 *disabilities enrolled in the school district, the school district may*  
29 *transfer the necessary amount of money from the adjusted base*  
30 *per pupil funding received by the school district for that purpose.*

31 3. *Each school district shall ensure that all weighted funding*  
32 *received by the school district pursuant to paragraph (e) of*  
33 *subsection 2 of section 4 of this act is accounted for separately and*  
34 *distributed directly to each school in which the relevant pupils are*  
35 *enrolled.*

36 4. *Each public school shall account separately for the*  
37 *adjusted base per pupil funding received by the public school*  
38 *pursuant to paragraph (c) of subsection 2 of section 4 of this act*  
39 *and for each category of weighted funding received by the public*  
40 *school pursuant to paragraph (e) of subsection 2 of section 4 of*  
41 *this act. Unless the provisions of subsection 7 or 8 impose greater*  
42 *restrictions on the use of weighted funding by a public school, the*  
43 *public school must use the weighted funding received for each*  
44 *relevant pupil:*

(a) As a supplement to the adjusted base per pupil funding received for the pupil; and

(b) Solely for the purpose of providing such additional educational programs, services or support as are necessary to ensure the pupil receives a reasonably equal educational opportunity.

5. Except as otherwise provided in subsection 6, the separate accounting required by subsection 4 for pupils with disabilities and gifted and talented pupils must include:

(a) The amount of money provided to the public school for special education; and

(b) The cost of:

(1) Instruction provided by licensed special education teachers and supporting staff;

35 *recommend the remaining money in the State Education Fund,*  
36 *excluding the Education Stabilization Account or any account*  
37 *created pursuant to subsection 5 of section 2 of this act, be used to*  
38 *provide a multiplier for each category of pupils which is as close*

16 *to prepare the proposed executive budget as described in*  
17 *subsection 1 or 2, the Governor may instead include in the*  
18 *proposed executive budget a recommendation for such funding for*

2. The separate accounting must include:

**Sec. 15.** NRS 387.121 is hereby amended to read as follows:

387.121 1. The Legislature declares that the proper objective of state financial aid to public education is to ensure each Nevada child a reasonably equal educational opportunity. Recognizing wide local variations in wealth and costs per pupil, this State should supplement local financial ability to whatever extent necessary in each school district to provide programs of instruction in both compulsory and elective subjects that offer full opportunity for every Nevada child to receive the benefit of the purposes for which public schools are maintained. Therefore, the quintessence of the State's financial obligation for such programs can be expressed ~~[in a formula partially on a per pupil basis and partially on a per program basis as: State financial aid to school districts equals the difference between school district basic support guarantee and local available funds produced by mandatory taxes minus all the local funds attributable to pupils who reside in the county but attend a charter school or a university school for profoundly gifted pupils.]~~ *by combining money raised pursuant to state law at the local level with state money to provide a certain basic level of support to each pupil in this State, adjusted to account for variation in the local costs to provide a reasonably equal educational opportunity to pupils and for the costs of providing a reasonably equal educational opportunity to pupils with certain additional educational needs.* This formula is designated the ~~[Nevada]~~ *Pupil-Centered Funding* Plan.

2. It is the intent of the Legislature ~~[, commencing with Fiscal Year 2016-2017, to provide additional resources to the Nevada Plan expressed as a multiplier of the basic support guarantee to meet the unique needs of certain categories of pupils, including, without limitation, pupils with disabilities, pupils who are English learners,~~

~~pupils who are at risk and gifted and talented pupils. As used in this subsection, “pupils who are at risk” means pupils who are eligible for free or reduced-price lunch pursuant to 42 U.S.C. §§ 1751 et seq., or an alternative measure prescribed by the State Board of Education.]~~ *to accomplish the transition to the Pupil-Centered Funding Plan without causing an unexpected loss of revenue to any school district which may receive less money under the Pupil-Centered Funding Plan than the district received during the fiscal year ending on June 30, 2020. Except as otherwise provided in subsection 3, if a school district would receive less money under the Pupil-Centered Funding Plan than the district received during the fiscal year ending on June 30, 2020, it is the intent of the Legislature that the school district instead receive the same level of funding that the district received during the fiscal year ending on June 30, 2020, and be given the flexibility to reapportion money between its adjusted base per pupil funding and weighted funding in a manner similar to the apportionment of such money in the fiscal year ending on June 30, 2020, to ensure that each pupil in the district receives a reasonably equal educational opportunity.*

*3. It is the intent of the Legislature to ensure that no school district that receives a modified allocation of money as described in subsection 2 receives less funding in a school year than the school district received in the immediately preceding school year unless the enrollment in the school district continues to decline for a period of 2 years or more. In the event of such an enrollment decline, it is the intent of the Legislature to determine an appropriate method to mitigate the effects of a continued decline in enrollment, which may include, without limitation, appropriating money to the school district as if the number of pupils enrolled in the district equaled the average number of pupils enrolled in the district over a rolling 3-year period.*

**Sec. 16.** NRS 387.1211 is hereby amended to read as follows:

387.1211 As used in NRS 387.121 to ~~[387.1245.]~~ 387.1244, inclusive ~~[.]~~, *and sections 2 to 12, inclusive, of this act:*

2. *“Average daily attendance” means the total number of pupils attending a particular school each day during a period of reporting divided by the number of days school is in session during that period.*

~~[2.]~~ 3. *“Average daily enrollment” means the total number of pupils enrolled in and scheduled to attend a public school in a specific school district during a period of reporting divided by the number of days school is in session during that period.*

5. "Enrollment" means the count of pupils enrolled in and scheduled to attend programs of instruction of a school district, charter school or university school for profoundly gifted pupils at a specified time during the school year.

374.015 The Legislature, having carefully considered the needs of the public school system and the financial resources of the State of Nevada, and its several classes of local governments, finds and declares:

1. That sound principles of government require an increased contribution ~~[by the local district, which controls its schools, to their]~~ *for the support [-] of the public schools in this State.*

2. That such an increase equitably should not and economically cannot be provided through an increase in the tax upon property.

3. That there is no other object of taxation, except retail sales, which is so generally distributed among the several school districts in proportion to their respective population and wealth as to be suitable for the imposition of a tax in each school district for the support of ~~[its local]~~ *the public* schools.

4. That it is therefore necessary to impose, in addition to the sales and use taxes enacted in 1955 to provide revenue for the State of Nevada, a separate tax upon the privilege of selling tangible personal property at retail in each county to provide revenue for the ~~[school district comprising such county.]~~ *public schools in this State.*

5. That in order to avoid imposing unfair competitive hardships upon merchants in the several counties, it is necessary that such additional tax be imposed:

(a) At the same rate in each county; and

(b) Upon tangible personal property purchased outside this State for use within the State.

6. That the imposition of such a tax at a mandatory and uniform rate throughout the counties of the State makes such tax a fair counterpart to the mandatory property tax levy which it is designed to supplement.

7. That the tax collected upon property purchased outside the State ~~[-, which cannot for this reason be returned to its county of origin,]~~ can best serve its purpose of supporting ~~[local]~~ *public* schools if it is channeled to the several school districts through the State ~~[Distributive School Account in the State General]~~ *Education* Fund.

8. That the convenience of the public and of retail merchants will best be served by imposing the local school support tax upon exactly the same transactions, requiring the same reports and making such tax parallel in all respects to the sales and use taxes.

**Sec. 66.** NRS 374.785 is hereby amended to read as follows:

374.785 1. All fees, taxes, interest and penalties imposed and all amounts of tax required to be paid to counties under this chapter must be paid to the Department in the form of remittances payable to the Department.

3. The State Controller, acting upon the collection data furnished by the Department, shall, each month, from the Sales and Use Tax Account in the State General Fund:

(b) Transfer .75 percent of all fees, taxes, interest and penalties collected during the preceding month from out-of-state businesses not maintaining a fixed place of business within this State to the appropriate account in the State General Fund as compensation to the State for the costs of collecting the tax.

~~[(e) Except as otherwise provided in NRS 387.528 or as required to carry out NRS 360.850 and 360.855, transfer the amount owed to each county to the Intergovernmental Fund and remit the money to the credit of the county school district fund.]~~
