Senate Committee on Growth & Infrastructure
Nevada State Legislature
401 S Carson St.
Carson City, Nevada 89701

Chair Cancela and Members of the Committee,

Thank you for the opportunity to provide written comments on AB 465. The undersigned organizations advocate for clean energy and climate solutions in Nevada, and collectively represent tens of thousands of Nevadans as members and supporters. Our organizations share a commitment to building and maintaining our state’s clean energy leadership.

We write to share our support for AB 465, creating an expanded solar access program. Clean energy is one of the fastest-growing sectors in Nevada’s economy, but the benefits of clean, homegrown electricity haven’t made their way to every community and customer. Renters and low-income families, who often face higher energy bills, have few or no options to get rooftop solar and the bill reductions it brings. And the same communities that can’t harness solar power also face many barriers to getting the good-paying jobs the industry creates.

While AB465 doesn’t allow for the open, third-party model of community-owned solar installations that we have supported in previous legislative sessions, the bill does require the utility to create a program that lowers energy rates for low-income customers, and creates an employment pipeline for Nevadans to join the solar industry - two major goals of our organizations. By helping more hard-working families save money on their power bills with cheap solar power, and targeting job training and work opportunities to communities that have often been missed by today’s clean energy industry, AB 465 will start Nevada down the path of shifting its clean energy economy to be more equitable, accessible, and affordable for all. We want to see as much of the program as possible focused on these constituencies and goals.

The sun shines on everyone in Nevada, and everyone should be able to benefit from it. We urge your support of AB465 to promote a strong clean energy future for Nevada.

EXHIBIT E Senate Committee on Growth
and Infrastructure
Date: 5-14-2019 Total pages: 73
Exhibit begins with: E1 thru: E73

Signed,

Rudy Zamora, Program Director, Chispa Nevada
Rev. Dr. Ralph E. Williamson, President, The Organizing Alliance
Andy Maggi, Executive Director, Nevada Conservation League
Sondra Cosgrove, President, League of Women Voters of Nevada
Elsbeth DiMarzio, Campaign Representative, Sierra Club Beyond Coal Campaign
Annette Magnus, Executive Director, Battle Born Progress
Dr. Mary House, CEO, CHR, Inc. (Caring, Helping and Restoring Lives)
Jerry Holliday, President, Uplift Foundation of Nevada

All of the following 4,790 individuals support this Clean Energy Future agenda for Nevada and signed the following pledge to show their support for Expand Access to Solar Power for All Nevadans:

"I SUPPORT: Electrifying Nevada's transportation, at least a 50% Clean Energy RPS by 2030, and expanding access to solar power for all Nevadans!" / "APOYO: ¡Electrificación del transporte de Nevada, al menos un 50% de RPS de energía limpia para el año 2030, y expansión del acceso a la energía solar para todos los nevadenses!"

Clean Energy. Clean Air. For Our Community.

ELECTRIFY NEVADA'S TRANSPORTATION

- ▶ Transportation is now the number one source of carbon emissions and harmful pollution in our communities.
- ▶ Electric vehicle technology is advancing quickly to meet this challenge, and soon everybody will be able to find an electric vehicle that suits their needs and budget.
- ▶ Nevada families will see major health and economic benefits by shifting to electric vehicles, and we should establish policies that encourage this transition.

AT LEAST 50% CLEAN ENERGY BY 2030

- ▶ Today, Nevadans get most of their energy from out of state fossil fuels.
- ▶ Increasing our Renewable Portfolio Standard will ensure that Nevadans get more of their energy from local sources like solar, wind, and geothermal.
- ▶ That means cleaner air, savings on energy and healthcare bills, and more jobs and investments in Nevada's economy.

EXPAND ACCESS TO SOLAR POWER FOR ALL NEVADANS

- ▶ Rooftop solar doesn't work for everyone; many Nevada families rent, or don't have the income, credit, or location to get their own panels.
- ▶ Community solar programs close this gap by allowing all Nevadans to access the benefits of clean energy projects in their community.
