(BDR 28-200)

FISCAL NOTE: Effect on Local Government: No.
Effect on the State: No.

EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets **[omitted material]** is material to be omitted.

AN ACT relating to public works; revising qualifications for entering into a contract with a public body as a construction manager at risk; requiring certain contracts between a public body and a construction manager as agent to be awarded on the basis of competence and qualifications and not on the basis of competitive fees; removing the prospective expiration of provisions relating to construction managers at risk; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law prescribes qualifications that a construction manager at risk must satisfy to be eligible to enter into a contract with a public body. (NRS 338.1691) **Section 1** of this bill additionally requires that a construction manager at risk must not have entered into a contract with a public body to act as a construction manager as agent during the 4 years immediately preceding the date of the advertisement for proposals pursuant to which a contract is awarded in order to be eligible to enter into such a contract.

Existing law: (1) prohibits the State of Nevada or any of its political subdivisions from selecting a professional engineer, professional land surveyor or registered architect to perform certain services on a public work on the basis of competitive fees; and (2) instead requires that the selection of such persons be made on the basis of the competence and qualifications of the engineer, land surveyor or architect for the type of service to be performed. (NRS 625.530) Existing law authorizes a public body to employ a construction manager as agent to assist the public body in overseeing the construction of a public work. Existing law requires a construction manager as agent to: (1) be a licensed contractor; (2) hold a certificate of registration to practice architecture, interior design or residential design; or (3) be licensed as a professional engineer.

Existing law provides that a contract between a public body and a construction manager as agent is not required to be awarded by competitive bidding. (NRS 338.1718) **Section 2** of this bill bases the selection of a construction manager as agent upon the same criteria as the selection of a professional engineer, professional land surveyor or registered architect on a public work. Specifically, **section 2** requires the selection of a construction manager as agent to be made on the basis of the competence and qualifications of the construction manager as agent for the type of services to be performed and not on the basis of competitive fees. **Section 2** exempts from this requirement contracts between a public body and a construction manager as agent to perform services for a public work for which the estimated cost is \$100,000 or less.

Under existing law, public bodies are authorized to construct public works under certain circumstances through a method by which a construction manager at risk provides preconstruction services on the public work and, under certain circumstances, construction services on the public work with a guaranteed maximum price, a fixed price or a fixed price plus reimbursement for certain costs. (NRS 338.1685-338.16995) Existing law eliminates the authority for public bodies to enter into contracts with construction managers at risk effective June 30, 2021. (Chapter 487, Statutes of Nevada 2013, at page 2986, chapter 562, Statutes of Nevada 2017, at page 4035) **Sections 3-5** of this bill remove the prospective expiration of this authority, thereby making the authorization to enter into contracts with construction managers at risk permanent.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:
