Legislative Counsel’s Digest:

Existing law provides for the licensure and regulation of behavior analysts and assistant behavior analysts and the registration and regulation of behavior technicians. (Chapter 437 of NRS) Existing law requires the Board of Applied Behavior Analysis to regulate the practice of applied behavior analysis and authorizes the Board to: (1) examine the qualifications of applicants for licensure or registration and license or register qualified applicants; and (2) revoke or suspend licenses and registrations. Existing law authorizes the Board to delegate certain duties to the Aging and Disability Services Division of the Department of Health and Human Services and requires the Division to collect applications and fees and conduct investigations of licensees and registrants. (NRS 437.130) **Sections 41, 54-56, 58, 59, 61, 63-77, 79-82 and 84** of this bill transfer the responsibilities of the Division concerning the regulation of behavior analysts, assistant behavior analysts and registered behavior technicians to the Board. **Section 45** of this bill authorizes the Board to contract with any appropriate public or private agency, organization or institution to carry out the duties of the Board. **Sections 31, 36, 57, 60, 78, 88-94 and 100** of this bill make various changes to reflect the transfer of duties from the Division to the Board.

Existing law establishes certain requirements governing the operation of licensing boards and the adjudication of contested cases before licensing boards. (Chapters 622 and 622A of NRS) Existing law additionally defines “provider of health care,” for the purposes of provisions relating to the healing arts, as a person who practices in a health-related profession listed within the definition.

(NRS 629.031) Existing law imposes certain requirements upon providers of health care, including requirements for the retention of patient records, requirements for billing, standards for advertisements and criminal penalties for acquiring certain debts. (NRS 629.051, 629.071, 629.076, 629.078) **Section 12** of this bill includes behavior analysts, assistant behavior analysts and registered behavior technicians within the definition of “provider of health care,” which has the effect of making those provisions applicable to behavior analysts, assistant behavior analysts and registered behavior technicians. **Sections 1-23, 27-30, 32, 33, 37-40, 85-87 and 95** of this bill make various changes to: (1) require the Board to operate and adjudicate contested cases in the same manner as other licensing boards; and (2) subject behavior analysts, assistant behavior analysts and registered behavior technicians to similar requirements as those that apply to other providers of health care.

Existing law prescribes the membership of the Board, which is composed of: (1) four members who are behavior analysts; and (2) one member who is a representative of the general public. (NRS 437.100) **Section 53** of this bill replaces one member of the Board who must be a behavior analyst with one member who is a behavior analyst or an assistant behavior analyst. **Section 44** of this bill requires each new member of the Board to complete orientation. **Section 48** of this bill revises the activities that constitute the practice of applied behavior analysis. **Sections 49, 52 and 83** of this bill revise provisions governing the supervision of assistant behavior analysts and registered behavior technicians. **Section 52** also requires a behavior analyst, assistant behavior analyst or registered behavior technician to comply with certain requirements concerning ethics. **Section 67** of this bill clarifies that a violation of those ethical requirements would be grounds for disciplinary action.

Existing law requires the Board to prescribe by regulation fees for the issuance, renewal and reinstatement of a license or registration as a behavior analyst, assistant behavior analyst or registered behavior technician, as applicable, and for any other services provided by the Division relating to the licensure and registration of behavior analysts, assistant behavior analysts and registered behavior technicians. (NRS 437.140) **Section 55** of this bill revises this requirement and instead: (1) requires the Board to prescribe by regulation certain enumerated fees relating to the licensure and registration of behavior analysts, assistant behavior analysts and registered behavior technicians; and (2) establishes certain maximum amounts for these fees.

Existing law requires: (1) an applicant for the issuance or renewal of a license as a behavior analyst or assistant behavior analyst to be certified as such by the Behavior Analyst Certification Board, Inc.; and (2) an applicant for the issuance or renewal of registration as a registered behavior technician to be registered as such by the Behavior Analyst Certification Board, Inc. (NRS 437.205, 437.225) **Sections 47, 49, 59 and 62** of this bill revise the certifications and registrations required for the issuance or renewal of such a license or registration. **Sections 63 and 64** of this bill: (1) authorize the Board to deny licensure by endorsement as a behavior analyst or assistant behavior analyst to an applicant who has been disciplined by the Behavior Analyst Certification Board, Inc.; and (2) extend the deadline by which the Board must notify an applicant for licensure by endorsement of any additional information required by the Board to consider the application. **Section 67** authorizes the Board to impose disciplinary action against a licensee or registrant who has been disciplined by the Behavior Analyst Certification Board, Inc.

Existing law exempts certain persons, including certain persons who provide applied behavior analysis services at a school, from provisions governing the practice of applied behavior analysis. (NRS 437.060) **Section 50** of this bill revises the list of exempted persons to exempt from those provisions: (1) a school

employee who provides services to a pupil consistent with the duties of his or her position; and (2) the guardian or caregiver of a recipient of applied behavior analysis services who performs activities as directed by a behavior analyst or assistant behavior analyst.

Under existing law, a behavior analyst, assistant behavior analyst or registered behavior technician may be required to take an oral or written examination to determine his or her competence to practice applied behavior analysis if there is a reasonable question as to his or her competence. (NRS 437.450) **Section 76** of this bill authorizes the Board to require a behavior analyst, assistant behavior analyst or registered behavior technician to undergo certain other examinations, including mental and physical examinations, as necessary to determine competence.
