1. An insurer that offers or issues a policy of health insurance which provides coverage of a prescription drug for the treatment of cancer or any symptom of cancer that is part of a step therapy protocol shall allow an insured who has been diagnosed with stage 3 or 4 cancer or the attending practitioner of the

insured to apply for an exemption from the step therapy protocol. The application process for such an exemption must:

(a) Allow the insured or attending practitioner, or a designated advocate for the insured or attending practitioner, to present to the insurer the clinical rationale for the exemption and any relevant medical information.

(b) Clearly prescribe the information and supporting documentation that must be submitted with the application, the criteria that will be used to evaluate the request and the conditions under which an expedited determination pursuant to subsection 4 is warranted.

(c) Require the review of each application by at least one physician, registered nurse or pharmacist.

2. The information and supporting documentation required pursuant to paragraph (b) of subsection 1:

(a) May include, without limitation:

(1) The medical history or other health records of the insured demonstrating that the insured has:

(I) Tried other drugs included in the pharmacological class of drugs for which the exemption is requested without success; or

(II) Taken the requested drug for a clinically appropriate amount of time to establish stability in relation to the cancer and the guidelines of the prescribing practitioner; and

(2) Any other relevant clinical information.

(b) Must not include any information or supporting documentation that is not necessary to make a determination about the application.

3. Except as otherwise provided in subsection 4, an insurer that receives an application for an exemption pursuant to subsection 1 shall:

(a) Make a determination concerning the application if the application is complete or request additional information or documentation necessary to complete the application not later than 72 hours after receiving the application; and

(b) If it requests additional information or documentation, make a determination concerning the application not later than 72 hours after receiving the requested information or documentation.

4. If, in the opinion of the attending practitioner, a step therapy protocol may seriously jeopardize the life or health of the insured, an insurer that receives an application for an exemption pursuant to subsection 1 must make a determination concerning

the application as expeditiously as necessary to avoid serious jeopardy to the life or health of the insured.

5. An insurer shall disclose to the insured or attending practitioner who submits an application for an exemption from a step therapy protocol pursuant to subsection 1 the qualifications of each person who will review the application.

6. An insurer must grant an exemption from a step therapy protocol in response to an application submitted pursuant to subsection 1 if:

(a) Any treatment otherwise required under the step therapy or any drug in the same pharmacological class or having the same mechanism of action as the drug for which the exemption is requested has not been effective at treating the cancer or symptom of the insured when prescribed in accordance with clinical indications, clinical guidelines or other peer-reviewed evidence;

(b) Delay of effective treatment would have severe or irreversible consequences for the insured and the treatment otherwise required under the step therapy is not reasonably expected to be effective based on the physical or mental characteristics of the insured and the known characteristics of the treatment;

(c) Each treatment otherwise required under the step therapy:

The insurer may initially limit the coverage to a 1-week supply of the drug for which the exemption is granted. If the attending practitioner determines after 1 week that the drug is effective at treating the cancer or symptom for which it was

prescribed, the insurer must continue to cover the drug for as long as it is necessary to treat the insured for the cancer or symptom. The insurer may conduct a review not more frequently than once each quarter to determine, in accordance with available medical evidence, whether the drug remains necessary to treat the insured for the cancer or symptom. The insurer shall provide a report of the review to the insured.

8. An insurer shall post in an easily accessible location on an Internet website maintained by the insurer a form for requesting an exemption pursuant to this section.

9. A policy of health insurance subject to the provisions of this chapter that is delivered, issued for delivery or renewed on or after January 1, 2022, has the legal effect of including the coverage required by this section, and any provision of the policy that conflicts with this section is void.

7. If a health maintenance organization approves an application for an exemption from a step therapy protocol pursuant to this section, the health maintenance organization must cover the prescription drug to which the exemption applies in accordance with the terms of the applicable health care plan. The health maintenance organization may initially limit the coverage to a 1-week supply of the drug for which the exemption is granted. If the attending practitioner determines after 1 week that the drug is effective at treating the cancer or symptom for which it was prescribed, the health maintenance organization must continue to cover the drug for as long as it is necessary to treat the enrollee for the cancer or symptom. The health maintenance organization may conduct a review not more frequently than once each quarter to determine, in accordance with available medical evidence, whether the drug remains necessary to treat the enrollee for the cancer or symptom. The health maintenance organization shall provide a report of the review to the enrollee.

8. A health maintenance organization shall post in an easily accessible location on an Internet website maintained by the health maintenance organization a form for requesting an exemption pursuant to this section.

9. A health care plan subject to the provisions of this chapter that is delivered, issued for delivery or renewed on or after

January 1, 2022, has the legal effect of including the coverage required by this section, and any provision of the health care plan that conflicts with this section is void.

10. As used in this section, "attending practitioner" means the practitioner, as defined in NRS 639.0125, who has primary responsibility for the treatment of the cancer or any symptom of such cancer of an enrollee.

Sec. 9. NRS 695C.050 is hereby amended to read as follows:

695C.050 1. Except as otherwise provided in this chapter or in specific provisions of this title, the provisions of this title are not applicable to any health maintenance organization granted a certificate of authority under this chapter. This provision does not apply to an insurer licensed and regulated pursuant to this title except with respect to its activities as a health maintenance organization authorized and regulated pursuant to this chapter.

This subsection does not exempt a health maintenance organization from any provision of this chapter for services provided pursuant to any other contract.

5. The provisions of NRS 695C.1694 to 695C.1698, inclusive, 695C.1701, 695C.1708, 695C.1728, 695C.1731, 695C.17345, 695C.1735, 695C.1745 and 695C.1757 ***and section 8 of this act*** apply to a health maintenance organization that provides health care services through managed care to recipients of Medicaid under the State Plan for Medicaid.

(b) The health maintenance organization issues evidence of coverage or uses a schedule of charges for health care services which do not comply with the requirements of NRS 695C.1691 to 695C.200, inclusive, ***and section 8 of this act*** or 695C.207;

(c) The health care plan does not furnish comprehensive health care services as provided for in NRS 695C.060;

(d) The Commissioner certifies that the health maintenance organization:

(1) Does not meet the requirements of subsection 1 of NRS 695C.080; or

(2) Is unable to fulfill its obligations to furnish health care services as required under its health care plan;

(e) The health maintenance organization is no longer financially responsible and may reasonably be expected to be unable to meet its obligations to enrollees or prospective enrollees;

(f) The health maintenance organization has failed to put into effect a mechanism affording the enrollees an opportunity to participate in matters relating to the content of programs pursuant to NRS 695C.110;

(g) The health maintenance organization has failed to put into effect the system required by NRS 695C.260 for:

(h) The health maintenance organization or any person on its behalf has advertised or merchandised its services in an untrue, misrepresentative, misleading, deceptive or unfair manner;

4. If the certificate of authority of a health maintenance organization is revoked, the organization shall proceed, immediately following the effective date of the order of revocation, to wind up its affairs and shall conduct no further business except as may be essential to the orderly conclusion of the affairs of the organization. It shall engage in no further advertising or solicitation of any kind. The Commissioner may, by written order, permit such further operation of the organization as the Commissioner may find to be in the best interest of enrollees to the end that enrollees are afforded the greatest practical opportunity to obtain continuing coverage for health care.

Sec. 11. Chapter 695G of NRS is hereby amended by adding thereto a new section to read as follows:

1. A managed care organization that offers or issues a health care plan which provides coverage of a prescription drug for the treatment of cancer or any symptom of cancer that is part of a step therapy protocol shall allow an insured who has been diagnosed with stage 3 or 4 cancer or the attending practitioner of the insured to apply for an exemption from the step therapy protocol. The application process for such an exemption must:

(a) Allow the insured or attending practitioner, or a designated advocate for the insured or attending practitioner, to present to the managed care organization the clinical rationale for the exemption and any relevant medical information.

(b) Clearly prescribe the information and supporting documentation that must be submitted with the application, the criteria that will be used to evaluate the request and the conditions under which an expedited determination pursuant to subsection 4 is warranted.

(c) Require the review of each application by at least one physician, registered nurse or pharmacist.

2. The information and supporting documentation required pursuant to paragraph (b) of subsection 1:

(a) May include, without limitation:

(1) The medical history or other health records of the insured demonstrating that the insured has:

(2) Any other relevant clinical information.

3. Except as otherwise provided in subsection 4, a managed care organization that receives an application for an exemption pursuant to subsection 1 shall:

(b) If it requests additional information or documentation, make a determination concerning the application not later than 72 hours after receiving the requested information or documentation.

4. If, in the opinion of the attending practitioner, a step therapy protocol may seriously jeopardize the life or health of the insured, a managed care organization that receives an application for an exemption pursuant to subsection 1 must make a determination concerning the application as expeditiously as necessary to avoid serious jeopardy to the life or health of the insured.

5. A managed care organization shall disclose to the insured or attending practitioner who submits an application for an exemption from a step therapy protocol pursuant to subsection 1 the qualifications of each person who will review the application.

6. A managed care organization must grant an exemption from a step therapy protocol in response to an application submitted pursuant to subsection 1 if:

(a) Any treatment otherwise required under the step therapy or any drug in the same pharmacological class or having the same mechanism of action as the drug for which the exemption is requested has not been effective at treating the cancer or symptom of the insured when prescribed in accordance with clinical indications, clinical guidelines or other peer-reviewed evidence;

(b) Delay of effective treatment would have severe or irreversible consequences for the insured and the treatment otherwise required under the step therapy is not reasonably expected to be effective based on the physical or mental characteristics of the insured and the known characteristics of the treatment;

(c) Each treatment otherwise required under the step therapy:

(1) Is contraindicated for the insured or has caused or is likely, based on peer-reviewed clinical evidence, to cause an adverse reaction or other physical harm to the insured; or

(2) Has prevented or is likely to prevent the insured from performing the responsibilities of his or her occupation or engaging in activities of daily living, as defined in 42 C.F.R. § 441.505;

(d) The condition of the insured is stable while being treated with the prescription drug for which the exemption is requested and the insured has previously received approval for coverage of that drug; or

(e) Any other condition for which such an exemption is required by regulation of the Commissioner is met.

7. If a managed care organization approves an application for an exemption from a step therapy protocol pursuant to this section, the managed care organization must cover the prescription drug to which the exemption applies in accordance with the terms of the applicable health care plan. The managed care organization may initially limit the coverage to a 1-week supply of the drug for which the exemption is granted. If the attending practitioner determines after 1 week that the drug is effective at treating the cancer or symptom for which it was prescribed, the managed care organization must continue to cover the drug for as long as it is necessary to treat the insured for the cancer or symptom. The managed care organization may conduct a review not more frequently than once each quarter to determine, in accordance with available medical evidence, whether the drug remains necessary to treat the insured for the cancer or symptom. The managed care organization shall provide a report of the review to the insured.

8. A managed care organization shall post in an easily accessible location on an Internet website maintained by the managed care organization a form for requesting an exemption pursuant to this section.

9. A health care plan subject to the provisions of this chapter that is delivered, issued for delivery or renewed on or after
