EXPLANATION – Matter in *bolded italics* is new; matter between brackets [omitted material] is material to be omitted.

AN ACT relating to hemp; requiring the submission of an application for registration as a grower, handler or producer to the State Department of Agriculture on or before July 1 of any year; setting forth certain requirements for the sampling and testing of hemp; revising the circumstances under which the Department is authorized to refuse to issue or renew, suspend or revoke a registration as a grower, handler or producer; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the growing and handling of hemp and the production of agricultural hemp seed by persons registered with the State Department of Agriculture. (NRS 557.200) **Section 1** of this bill requires that an application for registration as a grower, handler or producer be submitted to the Department on or before July 1 of any year.

Existing federal law authorizes the production of hemp under the primary jurisdiction of a state or Indian tribe if the state or Indian tribe submits to the United States Secretary of Agriculture a plan that satisfies certain requirements. (7 U.S.C. § 1639p) Existing federal regulations set forth requirements for such a plan. (7 C.F.R. §§ 990.2-990.8)

Existing federal law and regulations require a state plan to include certain procedures for the sampling and testing of hemp. (7 U.S.C. § 1639p; 7 C.F.R. § 990.3) Existing state law requires a grower or producer to submit to the Department or a cannabis independent testing laboratory approved by the Department a sample of each crop of hemp for testing before harvesting. (NRS 557.270) **Section 2** of this bill revises this requirement to instead require the Department to collect a sample of each crop of hemp for testing before it is harvested. **Section 2** then requires a grower or producer to harvest a crop within a specified period of time after the

Department collects such a sample. If a grower or producer does not harvest a crop within that period of time, **section 2** prohibits the grower or producer from harvesting the crop until the Department has collected a new sample. **Section 2** further requires such a sample to be tested and a report of the results of such testing to be issued to the grower or producer. Under **section 2**, if a grower or producer harvests a crop before a sample has been collected by the Department: (1) the crop is deemed to have failed the required testing; and (2) the Department is prohibited from renewing the registration of the grower or producer.

Existing federal regulations require a state plan to exclude from participation in the state's program for the production of hemp any person who materially falsifies any information contained in an application to participate in the program. (7 C.F.R. § 990.6) **Section 3** of this bill authorizes the Department to refuse to issue or renew, suspend or revoke the registration of a grower, handler or producer who materially falsifies any information in an application for registration submitted to the Department. Additionally, **section 3** authorizes the Department to take such action against a person who: (1) grows, handles or produces hemp in a manner that is inconsistent with the information submitted to the Department in the approved application for registration; or (2) fails to comply with applicable local ordinances or rules. Finally, **section 3** authorizes the Department to refuse to issue a registration as a grower, handler or producer to a person who has previously had such a registration refused or revoked for certain specified reasons.
