S.B. No. 384—Establishes certain provisions relating to the award of grants of federal money by a state agency for the development of broadband services and infrastructure. (BDR 18-1035)

## SENATE BILL NO. 384—SENATOR DALY

MARCH 27, 2023

Referred to Committee on Government Affairs

SUMMARY—Establishes certain provisions relating to the award of grants of federal money by a state agency for the development of broadband services and infrastructure. (BDR 18-1035)

FISCAL NOTE: Effect on Local Government: No.  
Effect on the State: Yes.

~

EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to broadband; establishing certain requirements for a state agency that awards grants of federal money for the development of broadband services and infrastructure; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law establishes the Office of Science, Innovation and Technology in the Office of the Governor and requires: (1) the Director of the Office to establish and administer a program of infrastructure grants for the development or improvement of broadband services for persons with low income and persons in rural areas of this State; and (2) the Office to establish and administer a program to encourage the deployment of broadband infrastructure in underserved communities in this State. (NRS 223.600, 223.610, 223.670) **Section 2** of this bill sets forth a legislative declaration regarding the importance of using a well-trained workforce and providing jobs to residents of this State in expending federal money to increase the development of broadband services and infrastructure in this State.

**Section 3** of this bill requires each state agency that awards grants of federal money for the development of broadband services and infrastructure to: (1) evaluate and assign a score to each grant application received by the state agency based on the factors and relative weights assigned to each factor that the state agency specified in the request for grant applications; and (2) assign a relative weight of 30 percent to a grant application if the applicant submits a signed certification with his or her application. **Section 3** provides that the applicant must certify that if the applicant or a provider of broadband services will perform some or all of the work or will subcontract some or all of the work to a licensed contractor, the applicant, provider or contractor: (1) meets certain safety and training requirements and provides job opportunities with high-quality wages for residents of this State and members of underrepresented communities; or (2) is a signatory to a collective bargaining agreement that covers the direct employees of the applicant who will perform any work financed in whole or in part by the grant money.

**Section 3** also provides that if an applicant ~~[provides a certification that the applicant] or provider [meets certain safety and training requirements and provides job opportunities with high-quality wages for residents of this State and members of underrepresented communities,]~~ **is a signatory to a collective bargaining agreement,** certain provisions of law requiring the payment of prevailing wages on public works do not apply. **Section 3.5** of this bill makes a conforming change to provide an exception to the requirements to pay prevailing wages on public works.

**Section 3** further requires each state agency to include as a condition of any grant award that: (1) the certification provided by the applicant is binding upon the applicant that is awarded the grant money; and (2) if a licensed contractor performs any work, certain provisions of law governing public works apply to the work performed by the subcontractor. Lastly, **section 3** authorizes the Director of the Office to adopt regulations to carry out the provisions of **section 3**.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN  
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

**Section 1.** Chapter 232 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 and 3 of this act.

**Sec. 2.** *The Legislature finds and declares that:*

*1. The State of Nevada is poised to see a once in a generation wave of federal money resulting from the passage of the Infrastructure Investment and Jobs Act, Public Law 117-58, and the American Rescue Plan Act of 2021, Public Law 117-2, which will help to close the digital divide and increase the development of broadband services and infrastructure across the State;*

*2. The State of Nevada needs to ensure that this historic investment creates long-lasting broadband infrastructure that is built by a well-trained workforce;*

*3. Work performed by an unqualified contractor with a poorly trained workforce endangers the public and is not in the best interest of the citizens of this State; and*

*4. Proper stewardship of public money will require that the State of Nevada implement appropriate measures to ensure that any grants of federal money awarded by this State for the development of broadband services and infrastructure prioritize issuing grants to applicants that will ensure the work is performed safely and by a well-trained workforce and that the applicant provides quality jobs to Nevada workers.*

**Sec. 3.** *1. In awarding any grant of federal money for the development of broadband services and infrastructure in accordance with federal law, each state agency shall:*

*(a) Evaluate and assign a score to each application received by the state agency based on the factors and relative weights assigned to each factor that the state agency specified in the request for grant applications; and*

*(b) When ranking the proposals, assign a relative weight of 30 percent to an application if the applicant submits a signed certification attesting that the applicant meets the requirements of paragraph (a) or (b) of subsection 2.*

*2. An applicant for a grant of federal money for the development of broadband services and infrastructure shall submit to a state agency with the application for the grant a signed statement certifying that:*

*(a) If the applicant:*

*(1) Will perform some or all of the work that is financed in whole or in part with the grant money or if such work will be performed by a provider of broadband services, the applicant or provider, as applicable, meets the requirements set forth in paragraph (b) or (c); and*

*(2) Will subcontract some or all of the work that is financed in whole or in part with the grant money, the subcontractor meets the requirements set forth in paragraph (b) or (c);*

*(b) The applicant, provider of broadband services or contractor, as applicable:*

1 (1) Has a robust training program with training requirements that are  
2 tied to titles, uniform wage scales and skill codes recognized in the industry;

3 (2) Requires safety training, including, without limitation, any safety  
4 training requirements of the Occupational Safety and Health Administration of  
5 the United States Department of Labor, and operates a safety program that  
6 requires drug testing;

7 (3) Requires work performed by the applicant, provider or contractor, as  
8 applicable, that is financed in whole or in part with the grant money will be  
9 performed by employees who are directly employed by the applicant, provider or  
10 contractor, as applicable, and that such workers will receive high-quality wages  
11 and benefits;

12 (4) Has programs to promote the training and hiring of workers from  
13 underrepresented communities; and

14 (5) Primarily employs a qualified local work force consisting of residents  
15 of this State or conducts a program to promote the hiring of residents of this  
16 State; ~~and~~

17 ~~(6) Has a documented record of complying with all applicable labor and~~  
18 ~~employment laws in the 5-year period immediately preceding the date the grant~~  
19 ~~application is filed or has a documented record of mitigating any violations of the~~  
20 ~~applicable labor and employment laws and has taken measures to ensure future~~  
21 ~~compliance with such laws; or~~

22 (c) The applicant, provider of broadband services or contractor licensed  
23 pursuant to chapter 624 of NRS that will perform some or all of the work is a  
24 signatory to a collective bargaining agreement that covers all non-supervisory  
25 employees directly employed by the applicant, provider or contractor,  
26 as applicable, who will perform any work financed in whole or in part with the grant  
27 money.

28 3. Except as otherwise provided in subsection 5, the provisions of NRS  
29 338.020 to 338.090, inclusive, do not apply to work performed by an applicant or  
30 provider of broadband services that is a public work if the applicant or provider,  
31 as applicable, is a signatory to a collective bargaining agreement.

32 4. Any certification submitted by an applicant for a grant pursuant to  
33 subsection 2 must be made available on the Internet website of the state agency  
34 which awarded the grant.

35 5. In addition to the requirements of subsections 1 and 2 and except as  
36 otherwise provided in federal law, each state agency shall require as a condition  
37 of any grant of federal money for the development of broadband services and  
38 infrastructure in accordance with federal law that is awarded by the state agency  
39 that:

40 (a) Any certification provided by the applicant pursuant to subsection 2 is  
41 binding upon the applicant who is awarded the grant money; and

42 (b) If a contractor licensed pursuant to chapter 624 of NRS performs any  
43 work financed in whole or in part with the grant money, the provisions of NRS  
44 338.020 to 338.090, inclusive, shall apply.

45 6. If any federal statute or regulation precludes the granting of federal  
46 assistance or reduces the amount of that assistance for a particular grant because  
47 of the provisions of this section, the provisions of this section do not apply insofar  
48 as their application would preclude or reduce federal assistance for that work.

49 7. The Director of the Office of Science, Innovation and Technology  
50 established pursuant to NRS 223.600 may adopt regulations to carry out the  
51 provisions of this section.

1        *8. As used in this section, "state agency" means every public agency,*  
2 *bureau, board, commission, department, division, officer or employee of the*  
3 *Executive Department of the State Government.*

4        **Sec. 3.5.** NRS 338.080 is hereby amended to read as follows:

5        338.080 Except as otherwise provided in NRS 408.55086, none of the  
6 provisions of NRS 338.020 to 338.090, inclusive, apply to:

7        1. Any work, construction, alteration, repair or other employment performed,  
8 undertaken or carried out, by or for any railroad company or any person operating  
9 the same, whether such work, construction, alteration or repair is incident to or in  
10 conjunction with a contract to which a public body is a party, or otherwise.

11        2. Apprentices recorded under the provisions of chapter 610 of NRS.

12        3. Any contract for a public work whose estimated cost is less than \$100,000.  
13 A unit of the project must not be separated from the total project, even if that unit is  
14 to be completed at a later time, in order to lower the estimated cost of the project  
15 below \$100,000.

16        *4. Any work performed for the development of broadband services and*  
17 *infrastructure using grant money awarded pursuant to section 3 of this act by the*  
18 *recipient of the grant money or a provider of broadband services if the recipient*  
19 *or provider, as applicable, is a signatory to a collective bargaining agreement,*  
20 *unless the work is performed by a contractor who is licensed pursuant to chapter*  
21 *624 of NRS.*

22        **Sec. 4.** 1. This section becomes effective upon passage and approval.

23        2. Sections 1 to 3.5, inclusive, of this act become effective:

24        (a) Upon passage and approval for the purpose of adopting any regulations and  
25 performing any other preparatory administrative tasks that are necessary to carry  
26 out the provisions of this act; and

27        (b) On January 1, 2024, for all other purposes.
