Explanation (Use Additional Sheets of Attachments, if required)

The Division has reviewed this BDR and determined it would have no fiscal impact, as drafted. Currently, any provider not enrolled with Medicaid who renders services to a Nevada Medicaid recipient may submit an enrollment application for Medicaid reimbursement purposes; the effective date of the enrollment can be retroactive up to 180 days after the submission date of the application. This means Medicaid reimbursement for covered services to Medicaid recipients can be applied retroactively within the 180-day time period. The provider would then be paid via the existing fee schedule for these services.
