Total	0	0	0	0

Explanation (Use Additional Sheets of Attachments, if required)

SB383 relates to state governmental administration and authorizes the establishment of municipal school districts. Section 9 of this bill authorizes the governing body of an incorporated city with a population of over 700,000 (currently Clark County) to establish by ordinance a municipal school district that is independent from the county school district of the county in which the city is located. Sections 4-8 of this bill establish the procedures for electing board of trustees members. Sections 1, 2, 9-21, 23-109, and 112-126 make conforming changes throughout the Nevada Revised Statutes eliminating references to county school districts or including references to municipal school districts.

Sec 88 (1)(b) amends NRS 268.0962 to deposit funds for capital projects of one or more school districts within the county established by NRS 387.328.

As written the fiscal impact to the department is undetermined. DMV currently distributes revenue to each county school district based on established criteria from the Department of Taxation. If these distributions change or require different calculations, programming to DMV’s legacy system may be required.
